## COUNTY AND MERRITTON ADJUST DIFFERENCES

Compromise Arrived At Avoids Costly Litigation In Regard To Fixed Assessment Of Alliance Paper Mill, Merrittton, Thirteen Municipalities Affected.

The Lincoln County Council, at a special session held on Tuesday, adopted the recommendations of the Department of Municipal Affairs, Toronto, regarding a compromise between the county and Merrittton so as to have the equalization appeal made by the town of Merrittton withdrawn and thereby avoid many thousands of dollars of taxpayers' money being spent in litigation as to the interpretation of the Assessment Act in connection with the fixed assessment of the Alliance Paper Mill in Merrittton.

Reeve H. G. Mogg, of Grimsby, was the chairman of the Special Equalization Committee of the County Council and was particularly active in connection with securing a settlement of the question at issue.

The principal dispute between the town and county which was the cause of the appeal arose out of the fact that the county equalization of assessment covered by bylaw No. 1067 placed Merrittton's Assessment for County Rates at \$1,835,142 as a result of the aggregate total of the local assessment being stepped up, notwithstanding the fact that such total includes the sum of \$416,000, being the fixed assessment upon the Alliance Paper Mill. The method pursued had the effect of increasing the Paper Mill assessment for county rate purposes by \$466,854 and the point at issue was as to whether or not the council had any authority to make such increases.

It was pointed out that the equalization appeal opened the door wide to litigation going on until it ended either at Ottawa or London. To prosecute

the appeal to its final conclusion, Mr. Cummings of the Dept. of Municipal Affairs said that it would involve the county and town of Merrittton in expenditures for costs which might well run to \$10,000 with the winner having to contribute perhaps \$2,500 and the loser the balance. The assessment in dispute was \$106,854 and if next year the county rates total \$364,000 as they did in 1935 and the equalized assessment was \$19,000,000, a county rate of 19.16 mills would be required which upon \$106,854 would produce in rates \$3,197. Referring to this letter of the dept. read "So in the last analysis the county and the town would involve themselves in a law suit about the sum of \$3,197 which might cost the taxpayers up to \$10,000."

It was therefore suggested that the situation would be well met if of the sum of \$106,854, Merrittton were to absorb \$66,854 and the remaining \$40,000 were to be distributed among the other municipalities of the county in the ratio that their respective equalized assessment bore to the other. The amount involved for the other municipalities worked out to about \$1,916. That amount distributed among the twelve municipalities affected gave an increase of \$286 to Grimsby at the highest and of \$71 to Beamsville at the lowest.

According to the compromise arrived at Grimsby will pay an additional \$155.41 on an equalized assessment of \$1,400,357 and North Grimsby \$207.98 on an equalized assessment of \$1,875,107.

## Bag Limits For Open Season On Pheasants Announced

Bag limits for the open season on pheasants in this area have been announced by the Department of Game and Fisheries. Limits permitted in Kent, Essex and Middlesex on Nov. 1 and 2. The limit in the first two counties will be three pheasants (cock birds only), four Hungarian partridges and four quail. The Middlesex limits are the same except for Hungarian partridge, on which the season is not opened. A season on three cock pheasants a day is to be opened on Nov. 1 and 2 in Haldimand, Lincoln, Welland, Ontario, Durham and Northumberland.

## Town Buys In Properties At Tax Sale On Monday

At the postponed tax sale held in the council chambers on Monday Councillor Lewis, chairman of the town property committee, bought in forty-five parcels of land on behalf of the municipality which were not redeemed by the owners. These comprised a good many vacant lots in various parts of the town while there were dwellings on some of the properties bought.

E. J. Muir purchased the property at 11 Robinson St. South formerly occupied by Willis Beamer. According to the Municipal Act the previous owner has a year in which to redeem the property otherwise it is retained by the purchaser.

## Fonthill Liberals Honor A. B. Damude

Arthur B. Damude, Fonthill, member-elect for Welland riding for the federal house, was the guest of honour at a civic reception at Fonthill when he was presented with a leather brief case. The presentation was made by Gibson L. Gordon, of Fonthill, on behalf of the gathering.

Other speakers included, Rev. C. E. Randall, chairman; Reeve Frank H. Clark, of Thorold township; Reeve Harold Abel, Fonthill; A. M. Clark, Rev. E. Bowden Taylor; Rev. J. L. Ginn, Welland and D. Ben Coleman, Welland.

The curved detour on No. 8 highway near Victoria Lawn Cemetery, St. Catharines, has been removed and traffic is now proceeding straight across the levelled canal. Loose stone covers the canal crossing and drivers should cross slowly.

## Tag Day For Blind \$67 Is Realized I. O. D. E. Active

The regular monthly business meeting of the I. O. D. E. will be held in the Chapter House on Monday, October 28th at 3 p.m. The executive are asked to meet at two o'clock.

The Tag Day in aid of the Institute for the Blind, sponsored by the I. O. D. E., was very generously supported, \$67.00 being realized. Great credit is due to the ladies in charge and to the girls who worked so hard to make the day a success.

The substantial sum of \$60 was raised at the recent rummage sale in aid of relief. Much of the success of the sale is due to Mrs. Groce and other members of the I. O. D. E. who have worked during the summer repairing and making over old garments.

## Must Be No Shooting In Towns And Villages

In connection with the squirrel and pheasant shooting days allotted by the Ontario government, it is pointed out to local hunters that there must be no shooting in towns or villages. The official dates for shooting are October 24 and 25, while pheasants may be shot on November 1 and 2, both being subject to certain restrictions as to numbers. District deputy game wardens, will be on the job all four days and hunters will, it was stated, be well advised to conform with the law. Reports are already being heard of pheasants being shot almost daily and nothing has been heard of efforts to stop this illegal shooting.

## Oshawa Youths Get Three Months For Theft At Grimsby

Owen Hales and George Oblinsky, the latter formerly of St. Catharines, both Oshawa residents, were sentenced to three months definite by Magistrate Campbell in Monday's county court. The pair pleaded guilty to charges of theft of bicycles from Charles Tweney and Robt. McLennan at Grimsby and then broke in and entered the store of S. J. Way at Grimsby on October 7 and taking \$200 worth of merchandise on their stolen wheels. They were caught at New Toronto and the goods recovered.

The annual achievement day of the boys' potato club of Lincoln County is to be held at Beamsville town hall on Friday commencing at 10 a.m.

## Fred Avery Kept Word—Rolled Peanut Down Young Street

Fred H. Avery, M.L.A. for Lincoln, kept his word at an early hour Tuesday morning. Protected by the privacy of early morning and further protected by a paper-mache nose he rolled a peanut down Yonge street, Toronto, to pay an election bet.

Lincoln's representative in the provincial house made careful preparations for the event. Not only did he equip himself with a false nose of considerable proportions but he rolled not any ordinary little peanut but a large paper-mache one. To further assist in the difficult feat he used a child's scooter which enabled him to lie down while he pushed.

During the recent campaign, Mr. Avery speaking in Toronto wagged that the Liberals would capture ten seats in Toronto and the Yorks. The failure of Liberal candidates to meet with the success of Mr. Avery's prediction resulted in Tuesday morning's performance.

## DUNROBIN'S TO EXTEND PLANT

Building Addition To Present  
Maturing Warehouse—To  
Install Additional Still Doubling  
Capacity And Bottling Equipment.

Dunrobin Limited, distillers of Grimsby are proceeding with the building of an extension to their present maturing warehouse. The unit now under construction is the first section of what will be a building designed to store six thousand full barrels.

The construction of this unit is to be of tile and steel, with metal roof insulated. It will be heated by steam with Thermostatic control to govern temperature.

It is expected that the company will very shortly proceed with the installation of an additional still, which will more than double the present capacity. This still is from the design of E. C. Welsh, the Vice President and Distiller (Continued on page 4)

## BANQUET TO MR. & MRS. SANDERS

Former Owners Of Grimsby  
Dairy Honored By Friends  
Prior To Departure For Eng-  
land—Held At Durham's Re-  
saurant.

Mr. and Mrs. H. F. Sanders who last week disposed of the Grimsby Dairy and who are returning to England next week, were the guests of honor at a happy and enjoyable gathering of their friends, including shippers, patrons and employees, held on Tuesday evening, about two score sitting down to a sumptuous spread at Durham's Restaurant, Grimsby Beach.

Following the delicious chicken dinner provided by this popular restaurant and after the singing of the National Anthem, a toast list was proceeded with, Mr. Harry Earle, ably acting as toastmaster.

Among the toasts honored was one to the guests of the evening, Mr. and Mrs. Sanders which was proposed by Hubert Secor and Mayor McPherson who paid tribute to their initiative and energy in establishing and successfully developing a new industry in the town which served both the municipality and the surrounding district, providing an outlet for the product of the dairy farmer in the immediate vicinity. While regretting the departure (Continued on page 5.)

## R. H. ST. JOHN HEADS LODGE

Officers Of Grimsby Lodge No.  
369 Installed—Enthusiastic  
Gathering Of Oddfellows—  
Port Colborne Lodge Visits  
Grimsby.

On Monday evening Oddfellows representative of the entire Niagara District were present at one of the most enthusiastic Oddfellow gatherings ever held in the Peninsula on the occasion of the visit of Beacon Lodge No. 201 Port Colborne to Grimsby Lodge No. 369 at which time the officers for the coming year were installed by District Deputy Grand Master Seth Allen and his installing (Continued on page 5)

## Error of 100 Votes In Lincoln—Official Majority Is 263

Returning Officer S. J. Wilson of Beamsville announces the official plurality of N. J. M. Lockhart in the recent election as 263, over A. E. Coombs, Liberal.

In totalling the returns the returning officer found an error of 100 which had been overlooked by the five who were adding the results. The error was in South Grimsby where Mr. Coombs' vote was given as 356 when the correct addition showed 456.

The official tabulation of the ballots as carried out by S. J. Wilson, returning officer for the riding, gave the following totals: Coombs, 11,135, including 23 absentee ballots; Craiss, 2,349; Lockhart, 11,398, including 2 absentee ballots; Pay, 1,224.

Of the 34,429 voters in the riding over two-thirds, or 26,106, cast their ballots, leaving 8,323 who remained at home.

The final ballot checking session was held by Returning Officer S. J. Wilson at Beamsville Tuesday afternoon when the absentee ballots were counted. Six of the absentee votes were rejected by the returning officer.

## NOMINATIONS ON NOV. 22nd

Councillor Lothian To Retire  
From Council—Others Not  
Prepared To Announce Can-  
didature As Yet.

With the approach of the town nominations which will be held on Friday, November 22 and the municipal election, if one is necessary, on Monday, December 2nd, interest in the likely candidates for the various civic offices is being evidenced by citizens. Watson McPherson who has served the municipality in the Mayor's chair for two years and previously a member of the council, recently intimated that it was his intention to retire. Suggested candidates for this office so far are ex-Mayor Hewson and Councillor Lewis. This week Councillor Lothian who (Continued on page 5)

## SPECIAL VOTE WEEK FOR BENEFIT OF CANDIDATES

Bonus Week Will Increase Vote Totals Of All Candidates—Maximum Vote Period of Drive Closes Saturday, November 2—Only Ten More Working Days Left.

Either Appreciation Week or Encouragement Week are names that might aptly apply to the six days commencing October 21st and ending October 26th. The Campaign Office being ever ready to encourage worthwhile efforts, and being fully appreciative of candidates who show a wholesome desire to finish on top, has arranged a special credit of 12,500 extra votes to be given to each candidate on each group of subscriptions or collections totalling five years, turned in during this week. These extra votes, given absolutely free as a dividend or bonus, will probably play

havoc with the present standing of candidates, but the move represents a just appreciation and reward to those who are trying, and will put them in an advantageous position for entering upon the most important week which begins on Monday, October 28th, at the end of which week the ultimate winners will likely be indicated.

Candidates are now getting very close to the time when vote values will have to decrease to ensure absolute fairness throughout the campaign and to discourage anyone from withholding unduly long any subscriptions received. (Continued on page 4)

## NOW!

Listed below is the relative standing to date of the candidates in the Independent Subscription Campaign. The next standing will be shown in bulletin form next Monday on the basis of all business turned in before 9.30 Saturday night.

MRS. LLOYD PETTIT, Grimsby	300,000
REGINALD CLOUGHLEY, Grimsby	287,500
J. D. RUSS, North Grimsby	287,000
MARY HIPPS, Grimsby	286,000
EARLE LLEN, Grimsby	285,000
C. C. CLATTENBURG, Grimsby	284,500
D. E. MCGREGOR, Grimsby	283,000
H. T. HAWES, Grassie	275,000
MARIE HUESTER, Winona	120,000
SYLVIA CHAYCHUK, Grimsby	5,000
HARRY HILDRETH, Grimsby Beach	5,000

The vote schedule printed above shows the candidates according to results so far produced but does not necessarily show the grand total of each as votes may be held in reserve.

## A Quitter Never Wins And A Winner Never Quits

## Two Lads Injured By Motor Car

On Friday during the noon hour as Lee Matheson, aged 14 and Ronnie Phipps, aged 7 were riding a bicycle on to Main Street at the Canadian Bank of Commerce they were struck by a car in charge of Mike Hatoski of Allanburg. The young Matheson boy suffered a slight concussion and several deep lacerations while the Phipps lad by jumping from the bicycle narrowly escaped with several cuts and bruises. The injured boys were taken into the offices of Dr. Gordon A. Sinclair and Dr. John Kyles who rendered medical aid. According to the driver of the car he was travelling twenty to twenty-five miles per hour although the car is reported to have skidded completely around when the brakes were applied.

## Object To Wholesale Slaughter Of Squirrels In Wentworth Township

Convicted on charges of causing wilful damage to field crops and appearing in the woods and public places of southern Ontario in greater numbers than for several years, the squirrels, black, grey and red, have been sentenced to be shot by a firing squad of hunters on Thursday and Friday of this week unless farmers and land owners (who have the power to step out their Thanksgiving day and post their properties with "no shooting" or no "trespassing" signs, thereby granting a reprieve to those interesting creatures of the wilds.

A bag limit of five squirrels a day of all kinds is all that will be allowed each hunter and close check will be kept by game wardens and the provincial police to see that the regulations are not broken.

The above verdict is not being received with popular approval, although there are some who believe it is the only method to curb their depredations and keep them from becoming too numerous. F. D. Brand, Saltfleet, charged them with having stripped four peach trees of their fruit and of helping themselves to his sweet corn in his absence. Other complaints evidenced their partiality for corn on the cob, but the overwhelming feeling among the rural people seemed to be that they should remain unmolested and free to roam the woods, their natural habitat.

J. F. Vance, county treasurer, and J. E. Peart, county clerk, were among those who delight in seeing these graceful creatures in the woods and on the roadsides through the country.

Frank Lee and Adam Reid, Saltfleet; Reeve Niram Fletcher, of Dunrobin; Austin Smith, Barton; Austin Smack, Glanford, and a number of others interviewed at the international ploughing match, expressed disapproval of allowing hunters to shoot squirrels. While it was admitted they did some damage by eating the kernels of corn, it had not been at all serious in this district.

## Coming Event

GRAND CONCERT under direction of Mr. John McDonald, in St. John's Presbyterian Church, Tuesday, October 28th, at 8 p.m. Fraser male quartette, solo, duets, choruses. Admission 25 cents.

## AWAY BACK WHEN

We publish this week a short and concise history of Grimsby Baptist church for the first ten years of its existence. This sketch covering the activities of the church for its first decade was written by the late Linus Woolverton and incorporated in the minute books of the Niagara Baptist Association. As this story is only up to the year 1887, we would be pleased to receive for publication from some Baptist adherent data or historical facts relating to this House of God from that date up until the present year.

On the 4th of January, 1877, the Baptist church at Grimsby was formally recognized by a council of which the Rev. Wm. Stewart, D.D., of Hamilton, was Moderator, and the Rev. E. Hooper of Beamsville, Clerk. The deacons then elected were C. E. Woolverton and L. King the church clerk L. Woolverton, and the number of constituent members, eighteen. The rise of the church in Grimsby is due entirely to years of faithful Sunday school work. Ever since the year 1847, Mr. C. E. Woolverton has taken the deepest interest in the spiritual welfare of the children of Grimsby, who were unconnected with any other church, and about the year 1847 he built the so-called Bible Hall, where some fifty or sixty children, with eight or nine teachers were accustomed to gather from week to week.

For a long time the only Baptist preaching at Grimsby was at a semi-monthly meeting on Sunday afternoon at three o'clock, by Baptist ministers from Beamsville. During the year 1876, the Rev. John Gilchrist, then pastor of the Baptist church at Beamsville, preached at Grimsby, semi-monthly, in the Bible Hall, with much acceptance and several were baptised by him.

The beginning of the year 1877 found the little gathering at Grimsby ready to receive an out-pouring of Divine blessing. Just at this time the Rev. E. Hooper became pastor at Beamsville and in compliance with the request of the infant church at Grimsby, held revival services in the Bible Hall during the month of January, 1877. His presentation of gospel truth was so clear and simple that many received it gladly and towards the close of the month eleven persons were received for baptism. After this the Rev. E. Hooper made an appointment with the church to preach every Thursday evening and once each month to preach on Sunday afternoon and administer the Lord's Supper. It was further agreed that the church should hold a prayer meeting on Sunday evenings and meet for Bible study on Sunday mornings, under conduct of Bro. L. Woolverton. The wave of blessing continued to flow on without interruption until on the 8th of December, 1879, we find that the number of persons who have been received for baptism during the three years were fifty-nine, a most encouraging beginning for so young a church.

During the year 1880 the present chapel was built, the contract price being \$3,250 and the lot \$500 more. Certain extras, however, increased the total cost to nearly \$4,000. At the opening services, on January 23 and 24, 1881, it was found that this sum had been all subscribed, with the exception of about \$900, or which \$500 was loaned by the church edifice society. At the present date (1887) the amount of \$300 still remains unpaid for.

In May, 1880, Bro. C. C. Willett was called to labor with the Grimsby church and on Thursday, 14th October, he was ordained by a council of delegates for sister churches.

In February, 1885, the Rev. Wm. Needham was called to the pastorate of the church, where he entered upon his work special evangelistic services were held in the chapel by his two brothers Thomas and Benjamin Needham, which were much blessed by God to the good of the church. At the Annual Meeting, on the 12th of January 1882, L. Woolverton was elected deacon. After a verities was elected deacon. After a successful pastorate of about a year and a half, marked by much general interest in the services and large

congregations, during which about twenty-four persons united with the church, the Rev. W. Needham resigned his charge to enter upon a larger field of labor. During the winter of 1882-3 the church was without a pastor, but the services were conducted each Sunday by the Rev. E. Hooper, who was engaged in medical studies in Toronto. On the 13th of May, 1883, the Rev. Chas. Owen of London, England, was called to the pastorate of the Grimsby church, which office he filled most faithfully and efficiently until July 1, 1884. During the winter of 1884-5 the services of the churches were conducted sometimes by the church clerk, and sometimes by students from McMaster Hall, until April, 1885, when the church invited Bro. R. R. McKay, student, to labor on the field. He labored most acceptably until August, 1886, when he was compelled to resign on account of ill health. On the 3rd of October, 1886, Bro. T. A. Hughes, of Guinness College, London England, was called to the pastorate of the church under the Home Mission Convention. On Tuesday, the 11th of February, the ordination council from the churches of the Niagara Association and also Revs. A. Grant and J. Donovan, of Toronto; and by this Council Bro. Hughes was ordained to the work of the Gospel Ministry in connection with the Baptist denomination.

The total number of persons who have been received into membership since 1880 and forty-five, but owing to the many removals, and other dismissals, the present number of members is only sixty-five. At the present time, though mourning a season of spiritual declension, the church looking hopefully and prayerfully forward for some indications of an approaching shower of blessings. The Sunday school, out of which the church grew at first, is still the most helpful branch of Christian work and we are that out of it may soon come reinforcements to strengthen the somewhat thinning ranks of the church.

On the 11th of February, the ordination council from the churches of the Niagara Association and also Revs. A. Grant and J. Donovan, of Toronto; and by this Council Bro. Hughes was ordained to the work of the Gospel Ministry in connection with the Baptist denomination.

## RECOMMENDATIONS BY GAME ASSN.

(Continued from page 4)

experiences this year the executive members canvassed farmers and members in their respective districts and the conclusion arrived at is from the findings of the fifteen executive members.

"We believe there is only a fair number of pheasants in Lincoln County. We feel that the honest sportsmen should be granted one or two days shooting of pheasants. We are positive that to permit a concentration of hunters into Lincoln County will create considerable trouble from the fruitgrowers and farmers. The Association realizes that the greatest mistake to be made is the concentration of a large number of hunters into a small area. If the area was Southern Ontario or not less than six or ten counties, the hunters would be better distributed.

"The above Association recommendations:

"1. That an open season be declared on pheasants in at least six counties; for a two-day period.  
"2. That the open season for all counties be on the same dates.  
"3. That the open season be October 23rd and 24th.

The above Association is opposed to:

"1. An open season in Lincoln and Welland Counties only.  
"2. To the season in Lincoln and Welland Counties being held on different dates than any other county.

"The Association views this important question from four different interests—the Pheasant, the Farmer, the Sportsman and the Department.

"The Pheasant—To concentrate the hunters into a small area would be to slaughter the birds so that there would be no breeding stock left. Every field would have a half dozen hunters waiting for a bird to fly. The season should not be later than November 1st. It should be held while there is plenty of cover to give the birds protection. In the interest of conservation we do not wish for a

slaughter. "The Farmer—The Association wishes to retain the good friendship of the local fruitgrowers and farmers. We realize his property rights and considered that it is not proper to concentrate so many hunters in one district so as to create heavy damage to his property. This could be avoided by opening more counties and distributing the hunters.

"The Sportsman—From the fact that considerable poaching takes place we feel that the honest sportsman should be given an opportunity to enjoy a pheasant hunt. The more counties opened the more sportsmen can enjoy a day in their own locality.

giving Day should be included in the open season to permit the working man to enjoy a hunt without loss of time. The announcing of an open season in only one or two counties causes the farmers to placard their properties with signs, against the influx of hunters. These signs remain long after the open season on pheasants and local rabbit hunters lose their favourite hunting grounds.

"The Department—We realize that the open season on pheasants produces a fair amount of revenue for the Department. This revenue is needed to carry on the work of the Department throughout the province. We feel that to extend the area for open season would increase this revenue, but to concentrate the hunters in a small area and antagonize the farmers may create a situation that in future years may deprive the hunter of his sport and the Department of its revenue.

"As a body of organized sportsmen who have assisted the Department in its work of distributing and protecting game and fish in Lincoln County, and who have the interests of conservation at heart, we request that the Department of Game and Fisheries consider seriously this question of concentrating the hunters into such a small area as Lincoln and Welland Counties and that when any decision is made that the friendship of farmer and sportsman be taken into consideration."

## NEWS OF THE SURROUNDING DISTRICT

## SMITHVILLE

In order to raise funds for the coming season the Smithville Hockey club held an invitation dance in the Masonic hall on Friday evening. The team will probably play in the Wainfleet Hockey association this year with games being staged at the Port Colborne arena. The Wainfleet association is affiliated with the Ontario Rural Hockey association and is composed of teams from Dala City, Wainfleet, O'Reilly's Bridge, Point Abino and possibly Fenwick.

Eighteen dollars which he had been saving from wages at a few odd jobs was stolen from the home of Ellis Lacey, at the outskirts of Smithville Friday morning while he was away.

Mr. Lacey had locked up his home while he was away for about half an hour. When he returned, he found the cellar door open. The screen in a cellar window had been cut out to gain entrance and the thief had left by the cellar door. He saw foot and knee prints near the window.

The thief had taken the money from a dresser drawer and had ransacked the house thoroughly.

Another case of dogs killing sheep occurred last week, when William McKinnell lost three. One was killed outright and the other two were so mangled that they had to be destroyed.

On Sunday the Right Rev. L. W. B. Broughall, D.D., Bishop of Niagara, visited St. Luke's church to administer confirmation and to preach on the occasion of the golden anniversary of the consecration of the church. A class of confirmation candidates from Smithville and the district around about, was presented by the rector, Rev. Dawson Harris. Fifty years ago, in the spring of 1885, the foundations of St. Luke's were laid, during the rectorship of the Reverend Canon Piper.

## STONEY CREEK

A snow-white robin, but for a dark bar or feather on each wing, was seen in the vineyard on W. E. Corman's farm by the grape pickers. During most of the afternoon it was in plain view of the pickers, who for a time were puzzled as to its identity.

Fire which had been smouldering in a tree stump for several days near Fekler's falls, in the Glendale crown game preserve, was fanned into a flame on Saturday night by the strong wind and for a time threatened to sweep the woods on three farms, endangering the barns and outbuildings. It burned over a large tract of woodland on the preserve before the neighbouring farmers and village fire brigade brought it under control.

The firemen had just returned to their homes when another call came in from the highway department to put out a fire among the trees and underbrush on property owned by the department on the mountain side bordering highway No. 20. The firemen managed to get this under control without much damage being done.

Highway department officials are finding it somewhat difficult to decide what form of stop-and-go signals should be erected at the intersection of highways Nos. 20 and 8, and also where they should be placed.

Dry weather is given as the reason for the small acreage sown with fall wheat on the Mountains, several farmers reporting the decrease from that of a year ago to be over 50 per cent.

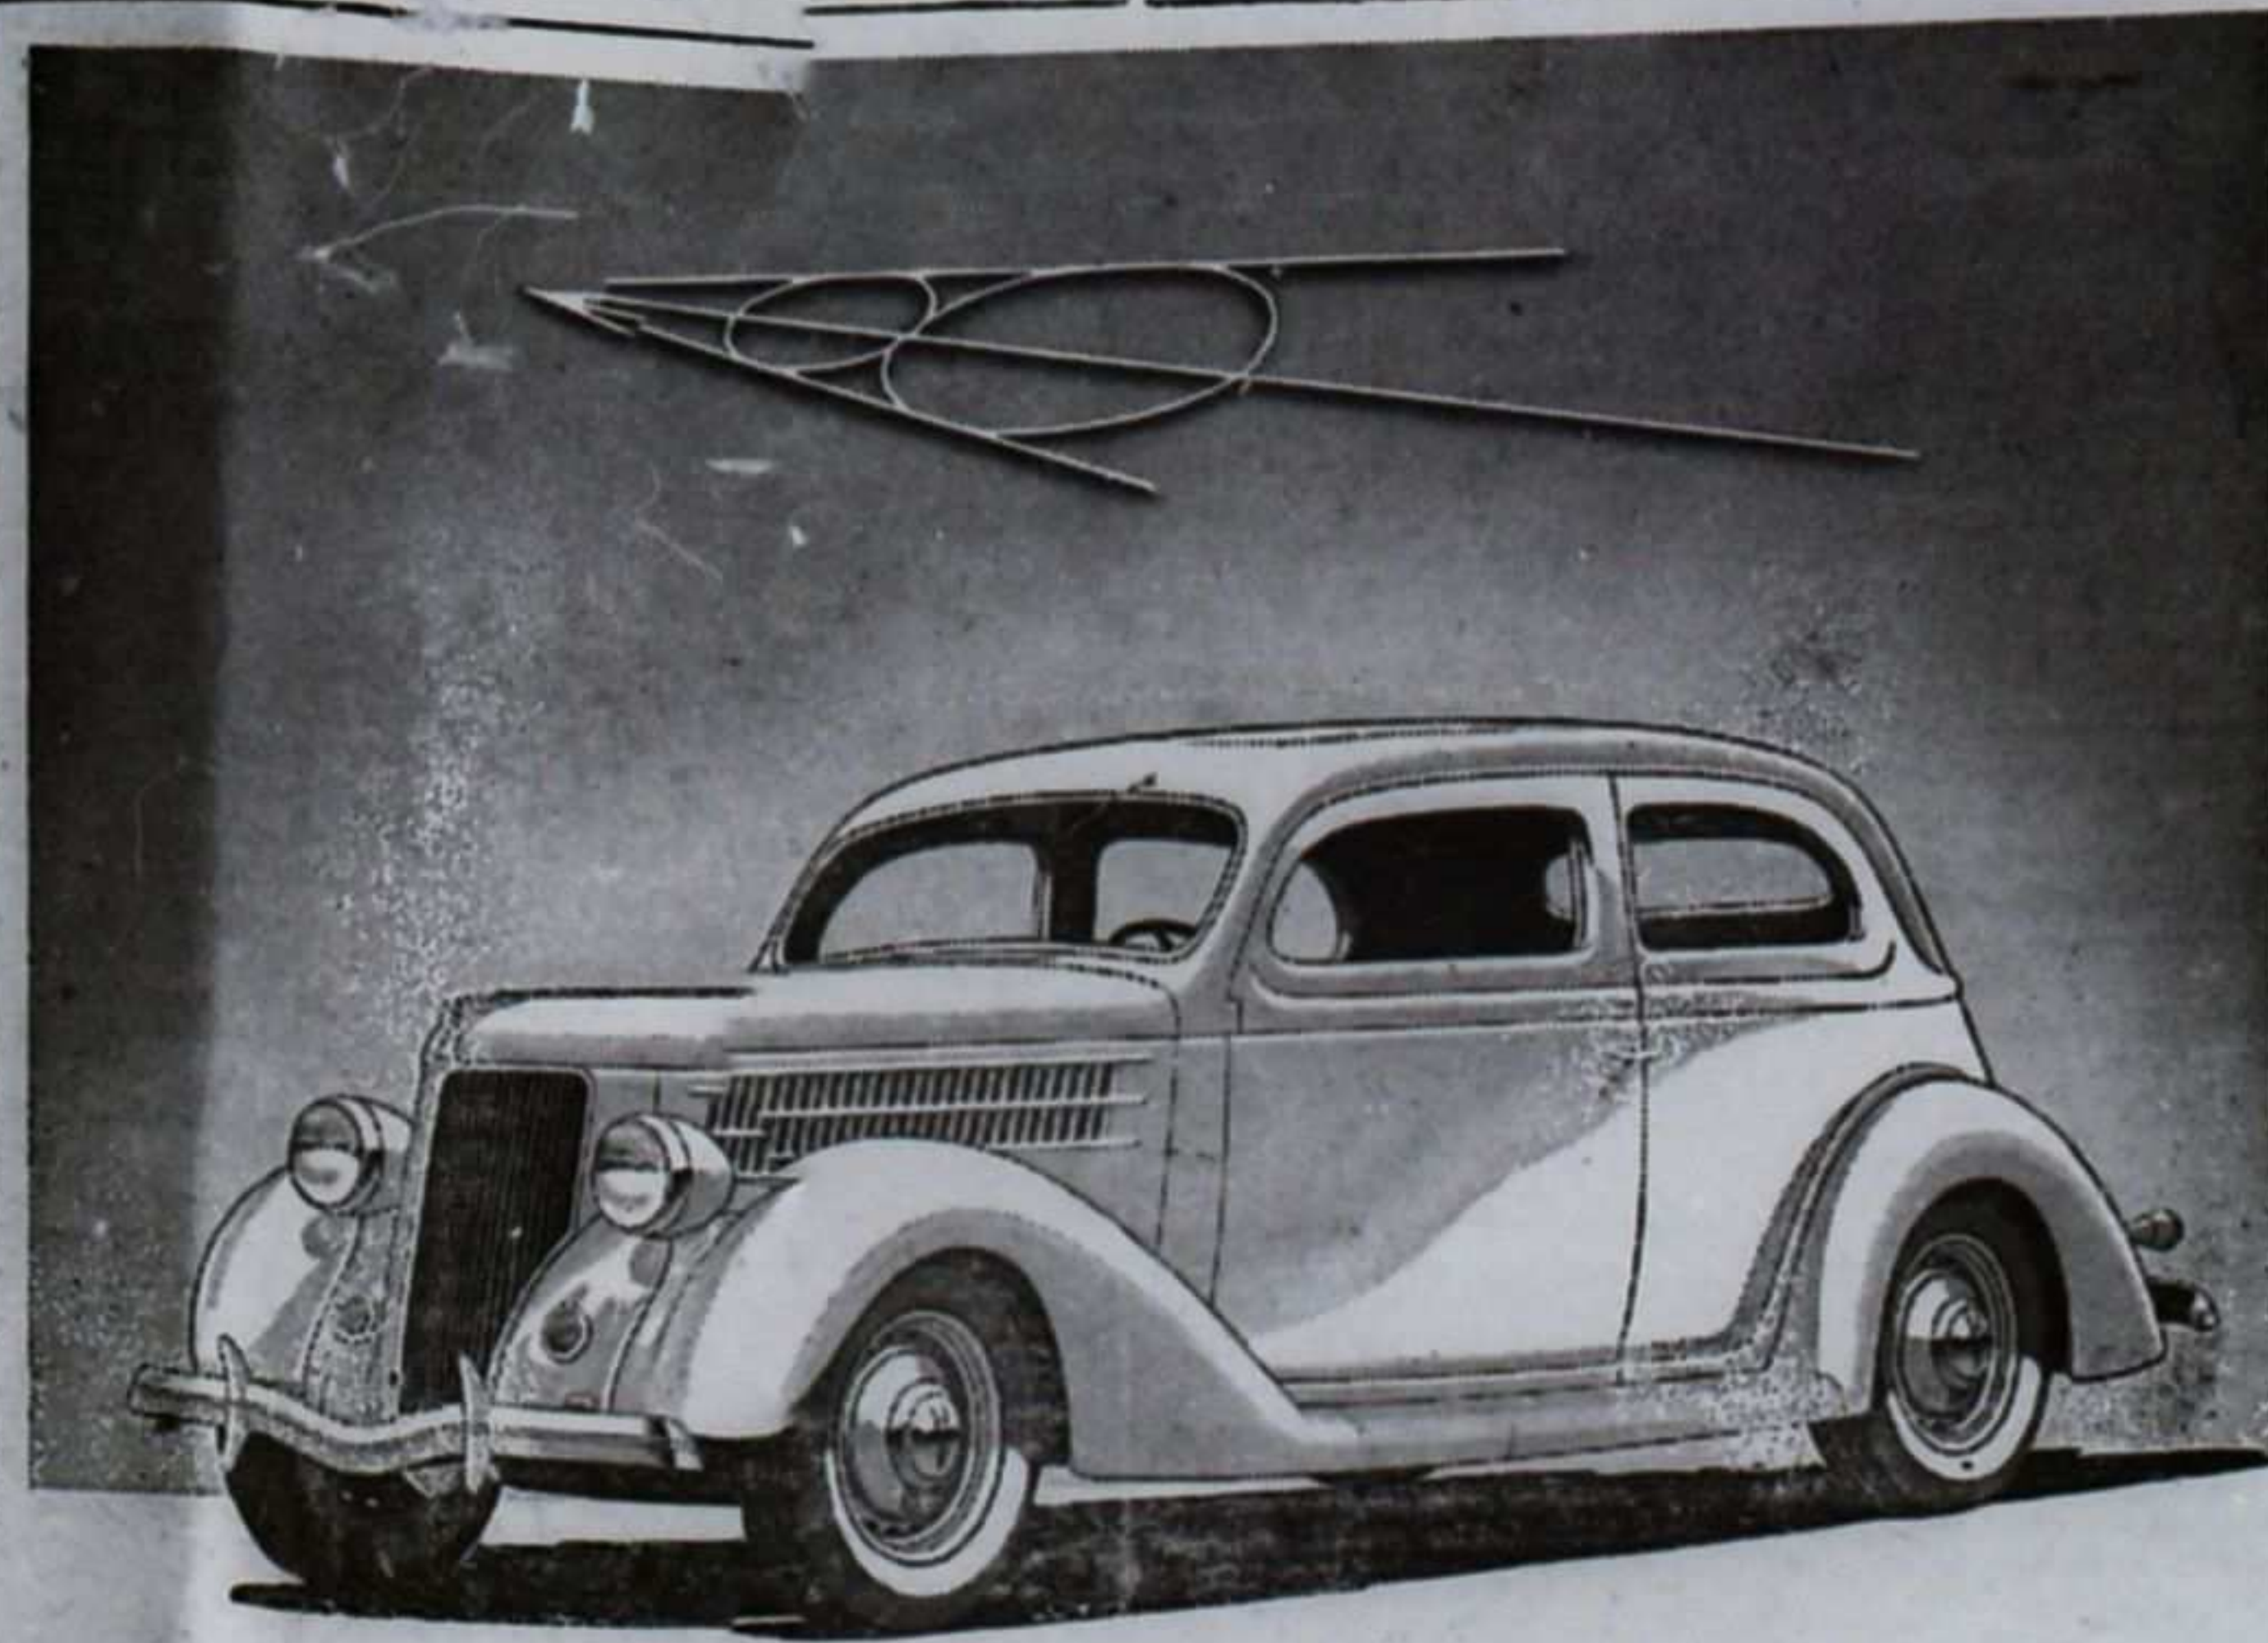

## BEAMSVILLE

It would seem that, in spite of all instructions issued to deputy returning officers before the polls, one here and there became excited after the closing of the polls and lost their heads. One deputy returned his box to Returning Officer Wilson with both the key and the "returns" slip locked inside. He put everything in and then mapped the padlock.

The Women's Institute, in conjunction with all the county institutes, is arranging for a representative banquet here some time early in December.

## FRUITLAND

Fire, which might have proved serious consequences, was started when "Dad" Graham, the old man of the road, prepared his midday meal the other day in the field owned by W. J. Hewitson. The dry grass was soon ablaze, eating its way towards a cedar hedge adjoining the property. Mr. Hewitson, along with several others beat out the fire.

## THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?

What is new about it?

Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.

You may buy a car on minor "talking points"—some specially advertised feature "with the car thrown in"—but, after all, it is the engine you buy when you buy a car. Hence we put the engine first.

Other new points about the car make a long list.

Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.

Ford upholstery—always of sterling quality and excellent taste—is rich and enduring. The appointments of the car have a new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters, many improvements have been made—Steering is made easier by a new steering gear ratio. The cooling system circulates 4½ gallons of water through a new, larger radiator. Natural thermosyphon action is assisted by two centrifugal water pumps. New style hood louvers permit a rapid air-flow around the engine.

Easier, quieter shifting of Ford gears—The gear shift lever now travels a shorter distance.

The two qualities you want in brakes—Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

Safety—as always—in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8—driver and car easily get on terms of good understanding with each other.

An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way, this 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Get complete details at your nearest Ford dealer.

## LOW FORD V-8 PRICES

TEN BODY TYPES—Coupe (5 windows), \$665. Tudor Sedan, \$675. Fordor Sedan, \$755. DELUXE—Roadster (with rumble seat), \$725. Coupe (5 windows), \$725. Coupe (3 windows), \$710. Phaeton, \$735. ## THIRTY MOUNTAIN

Mr. and Mrs. W. P. Millward; Mr. and Mrs. Cecil Millward and Geo. of Hamilton spent Sunday with Mr. and Mrs. E. Hurst.

Alex. and Mrs. Jameson and Eleanor Miller of Welland spent Sunday with Mr. and Mrs. Wm. Kemp.

Wedding Bells will soon be ringing at the Thirties.

Mr. and Mrs. Chas. Shafer spent Thursday evening with Mr. and Mrs. E. Hurst.

The sympathy of the community is extended to Mr. and Mrs. H. Aston and relatives in the death of little Barbara; also Mr. and Mrs. Wm. Tuford whose son was accidentally killed Saturday.

Mr. and Mrs. Wm. Lounsbury celebrated their thirty-fifth wedding anniversary last week. Congratulations, Mr. and Mrs. Lounsbury.

Mr. and Mrs. Irwin Meletzer spent Sunday with Mr. and Mrs. J. Ducker.

Frank (nephew of Hamilton) spent the past week with friends of the Thirties.

The many friends of Mrs. I. Sweet will be sorry to hear she is confined to her bed. Mrs. Reamer of Beamsville is with her. We all hope for a speedy recovery.

Advertise in the Independent and get results.

## WINONA

All members of the Winona Women's Institute and their friends, have received an invitation from the Stoney Creek branch to attend a special meeting which will be held in the institute hall, Stoney Creek, on Tuesday afternoon next at 2.30. This meeting has been arranged under the auspices of the Canadian Industries committee.

The many friends of Mrs. Roy Ainslee who has been very ill for the last three weeks will be pleased to learn that she is improving.

The first fall parade of "C" company took place on Wednesday night. Four Lewis gun teams from "C" company took part in the shoot at Long Branch ranges on Saturday afternoon for classification.

ST. CATHARINES CHAMPIONS OF ONTARIO JR. LACROSSE

The Young Athletics of St. Catharines were champions of Ontario Junior Lacrosse for the straight

year, winning the Troquois Cup on the last of a powerful offensive that eliminated Mimico Mountaineers.

After being held to a 10-9 win in their first game, Mel Soper's Athletics hit their regular stride before 400 spectators in the roomy cushion here on Saturday checked the Mounties to a standstill as scored a 25-7 victory, to sweep the O.A.L. Junior final series, by a 3-0 score.

## ORDERS CHANGES AT BURLINGTON LIBRARY

Acting under direct orders of W. Jennings, provincial inspector, the Burlington library board has ordered the reading room closed up and the partition which separates it from the main library knocked down. The library will then be one large room with a table for a reading room. Inspector Jennings also ordered that the room be redecorated and the lighting arrangements changed. He also advised that the annual expenditure of \$75 on magazines be reduced to \$30, and the balance used to purchase new books. Inspector Jennings stated definitely that no government grants would be forthcoming if the changes were not made. As the loss of the grants would mean the closing of the library the board is going ahead with the work at once. It was stated that the magazines were being stolen from the racks in the public reading room on a wholesale scale. In the future the reading room will be closed each day and opened on the same nights as the library proper.

## BOY MISSING—FORMERLY RESIDED IN GRIMSBY

Sinclair Robertson, of Grimsby, officially listed as among the missing crew of the motor ship John Medall, which is believed to have foundered on its maiden voyage from England to Canada recently, was a lad who was known locally as "Ted" Robertson,

having disappeared from here about a year and a half ago. The boy was a native of the Orkney Islands. Three years ago, when he was 15 years of age, he was sent to Canada by his aunt, Mrs. James Gunn, a former Grimsby resident. For about eighteen months he worked on the Grigg farm in North Grimsby township. He left without mentioning that he was leaving and is still listed as "missing" in police records. Mr. Grigg stated that no word of the boy was received from the time he disappeared until his name appeared in the list of those believed lost at sea. While he was known locally as Ted Robertson, Mr. Grigg said his correct name was Sinclair Edward Robertson. The boy apparently had a love for the sea and ships as Mr. Grigg states he was always talking about boats.

## CHEQUE RACKETEER

Warning has been issued from the Toronto head office of a Canadian bank against a swindler who is apparently making the rounds of Ontario towns and obtaining money by fraudulently issuing cheques in the name of a local church or clergyman. Cheques have been drawn, for example, on a Belleville bank and signed "St. Andrew's Presbyterian Church W. J. Walker, Minister." At Lindsay cheques have been drawn in the name of "St. Paul's Anglican Church—C. H. Marsh, Rector," and at Hamilton, "Christ Church Cathedral—C. F. Riley, Rector."

RECOMMENDATIONS  
BY GAME ASSN.

Lincoln County Organization  
Makes Survey Regarding Season  
For Shooting Pheasants.

In an effort to provide an open season for the shooting of pheasants in Lincoln county for local sportsmen the St. Catharines and Lincoln County Game and Fish Protective Association has gone to considerable trouble to try to arrange a proper season whereby the local sportsmen may enjoy a hunt and at the same time have the hunters distributed over a large area and not cause so much damage to the farmers' property.

The executive members living in their respective districts from Niagara to Grimsby have made a canvass as to the number of birds and the advisability of holding a shoot.

In arriving at their decision the association took into consideration the interests of the conservation of the birds, the farmers' property, the sportsmen and the department of game and fisheries. While this association desires an open season to shoot pheasants they make it quite clear that it shall not be at the expense of the local farmers, by holding the season in only Lincoln and Welland counties and over-running the local farms with outside sportsmen when at the same time there are plenty of pheasants in a great many other counties which could also be declared open.

The following letter is a copy of that forwarded by the local association to the department of game and fisheries outlining the feeling of the association on the question of an open season on pheasants:

"Dear Sirs.—The question of an open season for the shooting of pheasants in Lincoln County has always presented a big problem to the Association. Benefiting from past

(Continued on page 8)

Ford V8 Cars  
For 1936—No Radical  
Changes In Design

Ford V-8 cars for 1936, of which details have just been announced by the Ford Motor Company of Canada, Limited, reveal no radical changes in design but include a number of mechanical refinements and attractive new front-end appearance.

Body lines which strike a new note in conservative streamlining, a new treatment of the interiors and three important refinements in chassis engineering summarize the principal improvements. The 90-horsepower V-8 engine, of which more than 2,000,000 are now in operation, is unaltered. Ten body types are available. These are:

De Luxe: Three-window coupe, five-window coupe, roadster with rumble seat, phaeton, cabriolet with rumble seat, Tudor touring sedan and Fordor touring sedan.

SPORTGRAPHICALLY  
— SPEAKING —

By Bones

John Ritchie McVicar, the Black Horse beer peddler, is still in demand as a hockey player and coach, despite the fact that his employers hat-rooted last year said no in most emphatic manner. Last week "Old Pop" received a wire from Jean Debut, president and majority owner of the Providence, R. I. team, offering the elongated boy a nice contract to become playing-manager-coach of the "Reds" in the Can-Am. league but he was forced to refuse the offer. Debut then went further and communicated with National Breweries Corp. in Montreal who employ McVicar, in an effort to get them to release him for the hockey season, but they hung the nothing doing sign out and as a result "Battle-ship" Leduc the old Canadian defence star will be at the helm of the "Reds" this winter. McVicar who helped the Providence team to win three championships is highly regarded in the Rhode Island city by both the club owners and the fans.

Latest reports are to the effect that "Jerry" Carson, the only man in the world that can talk to a puck in three languages, has hung up his hockey tack for good and all. The big boy is the property of Montreal Canadiens but now has a mighty sweet all-the-year-round job and he figures it good business to stick to his job and let hockey take care of itself.

Jack Maunder writing his column "Sports Shots" in the Northern News, Kirkland Lake, says: "Four 1935-36 Millionaires may arrive in town during the next week. Say, the original 'Hawkeye' is tripping down south." That statement is correct. The "Hawkeye" was tripping. He was in town over the week-end negotiating with several of our young Peach Kings and it looks like he has about wrecked the team. He left for Kirkland Lake on Monday night accompanied by Teddy Hand, the smart left winger from the North Ward, and it is understood that "Lanky Hank" will left for the north country the first of this week accompanied by that crack right winger "Duffy" Duffield.

October 15th was the dead line for transient hockey players and the powers that be of various teams throughout the O. A. A. territory had been on the still hunt for good players for several days previous. Our own scintillating centre ice player Dyke Lawson was one of the ice gladiators that was sought. He received several offers from different teams to change the color of his sweater, principal among the teams seeking his services being Niagara Falls Cataracts. Right up until the last minute the "Big Roar" town officials were on his trail, but he turned a deaf ear to all their proposals and is still in our midst "sticking type" at The Independent.

Town Clerk Bourne has received the revised voters' list of the municipality from Judge Campbell, St. Catharines.

## Local Items of Interest

Fire broke out in a chicken coop at the rear of Mr. W. H. Parson's residence, 141 Main Street West, on Monday where, it is reported, children were playing with matches. The local department were at the scene in short order and extinguished the fire. Damage was estimated at \$200.

On Monday evening St. Andrew's A.Y.P.A. held a most enjoyable social evening in the Parish Hall. Arrangements are under way for a Halloween masquerade party, when it is anticipated an out-of-town A.Y.P.A. group will be entertained.

A sacred cantata, which will be given in costume entitled "Healing of Naaman, the Leper" will be rendered by St. Ann's United Church Choir, augmented by singers from Smithville and surrounding community in Trinity Hall, on Tuesday, October 29, at 8 p.m. under the auspices of the Women's Missionary Society of Trinity United Church.

The grape crop in the district is almost all harvested although prices have been low, one grower stating that he was selling his grapes at \$10. per ton ready cut for truckers or \$5 per ton letting the purchaser handle the cutting themselves. The loss to the growers through the recent heavy frosts has totalled a large amount, the grapes being spoiled for basket sale.

Albert Cole left his car supposedly parked on Main Street one day last week with his grandchild in it. Residents who happened to be on the street at the time were startled to see the car moving along, bump into the car ahead and swerve across the street bumping into another car and climbing over the curb headed for the Canadian Bank of Commerce.

A passerby jumped on the running board and reached through the window to apply the emergency brake just as it grazed the bank door.

The I.O.D.E. meeting, which was to have been held on Monday at 2.45 p.m., has been postponed until 8 o'clock.

St. Andrew's Harvest Thanksgiving Services next Sunday at 8:11; 2.30 and 7 o'clock.

Special Thanksgiving Services will be held in St. John's Presbyterian Church this Sunday. The choir assisted by the Fraser Male Quartette, of Hamilton, will render special music at both services. Rev. I. B. Kaine, B.A., minister will preach on the following subjects: 11 a.m. Giving Thanks. 7 p.m. An unexpected event that helped make Ethiopia a Christian Nation. A hearty welcome extended to all.

The conveners of the Hope Chest Committee request that all books of tickets and money be turned in at the business meeting of the I.O.D.E. on Monday, October 28th.

George Parsons, son of Mrs. W. G. Parsons, was taken to St. Joseph's Hospital, Hamilton, for treatment on Monday afternoon.

A very interesting lecture entitled "The Destiny of the British Empire" was given in the Masonic Hall on Friday evening. Pictures were thrown on the screen of the British Empire colonies and scenes of the Holy Land and other pictures of interest were also shown. The hall was well filled.

The Thanksgiving Services held in Trinity United Church on Sunday were largely attended. Rev. Mr. Earchman, officiating. The choir rendered appropriate music, including solos by Miss Flora Alton and Mrs. C. S. Beas.

There has been a considerable improvement in the revenue from tax collections this year as well as from water department accounts, indicated by the payment of water bills to the commission.

INJURED IN MOTOR ACCIDENT  
NEAR GRIMSBY

Three St. Catharines people suffered shock and injuries in a motor accident at Grimsby Beach Thursday. Julius Palchik, 54 Marquis St., received lacerations about the legs, his wife was severely shaken up and suffered from shock and a young child also suffered from shock when the left rear tire of their car blew out. The car went off the road into the ditch and was badly damaged when it overturned against a cement culvert.

## BOY SCOUTS

The Grimsby Boy Scouts have been successful in their campaign of Grimsby for the purpose of building a juvenile hockey club for the coming season, the amount being \$15.22. Anyone desirous of helping with additional subscriptions should get in touch with Mr. Mason.

DUNROBIN'S TO  
EXTEND PLANT

(Continued from page 1)  
Engineer of the Company, and will embody many new features, being almost automatic in action, as well as greatly reducing production time.

Installation of a very complete bottling equipment is being placed with the greatest speed, to bottle the first DUNROBIN products that will be released shortly from their warehouse, the legal age of maturity having just been reached.

The many shareholders of the company are looking forward to this event with considerable interest.

A flavor still for the production of original flavors to be used in the manufacture of three types of fin, which the company will manufacture, is on order and is expected shortly for installation.

The Company is now working to plant capacity distilling brandy from the current grape crop, and it is the intention of the Company to proceed with grain distillation at the expiration of the present fruit crop.

FACES CHARGES OF ASSAULT  
AS RESULT OF FLOGGING  
OF SCHOOL BOY

At a specially called meeting of the board of trustees of Hillcrest public school, Saltfleet, Friday night a full report of the circumstances surrounding the flogging administered to a 15-year-old fourth form boy the previous Tuesday was made by the principal and teachers involved.

John Cook, the 27-year-old principal who faces a charge of assault as a result of the incident, appeared with the two women teachers of his staff, Miss Margaret Glidden and Miss Norma Clegg, who, it is said, helped Mr. Cook hold young Raymond Whitehead while he was strapped across the back and shoulders.

AM-WA-GO. Try this natural Herb Remedy—Nature's way to health. Cleanses the system — purifies and enriches the blood — revitalizes and invigorates. One package makes a pint. 25 cents. Also in tablet form. Dymond's Drug Store. 1tc

SPECIAL VOTE WEEK FOR  
BENEFIT OF CANDIDATES

(Continued from page 1)  
ed; it is necessary that vote values decrease as the campaign progresses. These vote values are changed at certain fixed pre-arranged intervals which have been already announced, and the end of the first period, during which candidates are entitled to the maximum number of votes on subscriptions or collections, is getting rather close at hand.

All readers can be of a tremendous help to their favorite candidates during this week. Everyone undoubtedly knows of one (or more) persons living in the locality who are not, and should be, regular readers of the Independent. It would be of wonderful help to a candidate to receive a list of suggested names of prospective subscribers and any candidate would greatly appreciate that form of co-operative assistance. An appeal is now being made by the candidates to all Independent readers to write or telephone the names of any persons who might be considered as good prospects. It would be a source of a great deal of pride for a reader to realize that through a timely tip he was able to put a favoured candidate in touch with prospects that would result in a sufficient majority of votes to win one of the major prizes.

It is expected that the extra votes being given during this Encouragement Week or Appreciation Week will firmly entrench those candidates who are leading the campaign at the end of the week in a thoroughly impregnable position. The candidates who are at present in the lower portion of the list will see to it this week that their positions will be greatly improved if not completely reversed.

## LAD, ARRESTED

CLEAR UP BREAK-INS  
The arrest Thursday night in Hamilton of a 15-year-old lad with a previous juvenile delinquency record provided the solution to at least nine break-ins in Hamilton in recent weeks. A fugitive from custody of the Bowmville Industrial school the youth has pursued a career of crime and precarious living which was admitted to police following his arrest by Sergeant Jack Etherington, near the officer's home on Alkman avenue.

Barely escaping capture when he was discovered in the home of William Crane, 95 Alkman avenue, about 8.40 p.m., the juvenile bandit walked into the arms of the law some time later.

## SOME GOOD HOME RECIPES

**Meat Loaf With Dressing**  
1 lb. chopped beef, 1 tablespoon minced parsley, 1 tablespoon minced onion, salt, pepper, 1/2 cup tomato juice. Mix this well together, shape about 1/2 of mixture in a loaf leaving cavity in the centre for the dressing. Stuff with bread dressing made from 1 cup stale bread crumbs, salt, pepper, 2 tablespoons minced parsley, 2 tablespoons butter, 1 egg, 1 teaspoon savory. Cover with remainder of meat mixture and bake till done. Serve hot with baked potatoes.

Mrs. Harvey, Grimsby.

## Yorkshire Pudding

1/2 cup flour, 1 egg, 1 cup milk, 1 oz. dripping, 1/2 tsp. salt. Put flour in basin, add salt, beat egg with a pinch of salt, add milk to it, pour very gradually into the flour (stirring all the time). When smooth put by in a cool place for an hour. Make dripping hot in a tin, pour in pudding and bake 1/2 of an hour, or cook under the meat.

Mrs. Harry Faulkner, Grimsby.

## Oyster Omelet

Beat 4 eggs until thoroughly mixed then add a dozen oysters, 2 tbsp. sweet milk, a pinch of salt and pepper, and enough fine bread or cracker crumbs to thicken. Mix well, then turn mixture into a small well buttered cake pan, spread a little soft butter over the top and bake a nice brown.

Miss F. E. Aichman.

## Florida Salad

To one cup applesauce add 1 tbsp. orange juice. Use to fill 6 bananas that have been scraped and shaped like long boats. Arrange on lettuce leaves pipe with whipped cream and put candied cherry on each end of banana boat.

Mrs. W. H. Groce.

## Yesteryear at GRIMSBY PARK

Historical Romance of Grimsby Township

By Myrtle A. Bean

PART I  
1859 - 1874  
Synopsis

The story opens in 1859. It is evening and in the little log house situated up over the mountain in a clearing surrounded by forest Mrs. O'Neill is waiting anxiously for the return of her husband, Henry O'Neill, who left early in the morning for Grimsby to have his wheat ground at the grist mill. She can't understand what is keeping him.

Carrie, the capable sixteen year old daughter who has her mother's good looks, longs for the social life of the church in Grimsby where the Methodists hold service in the Presbyterian church on Sunday evening. She has been to sing at singing school in No. 12 Schoolhouse. The Mortons in Grimsby are great friends of the O'Neills.

Nathan, the twelve year old son, is sent out to find his father and if necessary he is to get one of Ralph Walker's horses and continue on towards Grimsby in search of his father.

"Yes, that's Pa and Nathan shouting," said Mrs. O'Neill much relieved, patting the dog's head who rushed in to the room when Carrie opened the door. "Down Roger, do you think you brought him?" Back he ran to jump harmlessly at Nigger's plodding feet, barking at the creaking wheels till they stopped before the door.

"Those new spermaceti and paraffin candles we made yesterday are a great improvement, wife, on the old tallow. I saw the light clear down to the turn," said Henry O'Neill throwing his long legs over the cart and jumping down, "I've brought you something."

"But Nathan had already let out the secret, eating a large yellow harvest apple with great relish. 'The cart's full, bring out the tub.'"

"Henry, you've been to Beamer's orchard," said his wife "Aren't they wonderful?"

"Yes, Will Beamer came up the hill with me and when we got to the orchard he said I should come in and fill the rig with apples, and we can get another lot if we want them. They

have a tremendous crop this year," he said as they transferred the apples. "I brought you some cider too for your vinegar. Will's got his cider press in the big walnut tree going. This lot was just made yesterday and has just enough nip to taste good."

"How many kinds of apples are on that place?" said Mrs. O'Neill, rummaging through the assortment. "We'll dry some of these."

"Have a paring bee, Ma, coaxed their daughter. We had such fun at Beamer's last year."

"Here's another yellow one Carrie, bigger even than mine; A whole lot of them," said Nathan throwing one to her. Carefully he picked out one of each kind and set them on the table in a row. "Now, can you name them Pa?"

"Well, let's see" said Mr. O'Neill scratching his head. "This is the sheep's nose, this the russet, here's the water core, and the greasy apple; I think they call the twist apple because the trunk of the tree is so twisted."

"How about this one?" "Well, those are big sweet apples. 'Looking dubiously at half a dozen still unnamed he laughed and said, 'and those others have no name that I know of. Old John Beamer lived a long time before he saw apples on these trees. Did you know Nathan, he planted them from apple seeds he brought with him from New Jersey when he came to Canada with his friends, the Smith's and the Kettl's about 1788. He proved this is good orchard land. Now they're grafting winter apples, called apples and greenings, onto a couple of the trees. It might work. Palmer grafted some of Beamer's onto wild apple trees on his place some time ago and he's getting apples this year. I think we'll try it too, eh Nathan?"

"Does it always have to be an apple tree?" "I think it does. We'll find out more about it though and try it too."

"We better eat now. Supper's ready" said Carrie. The four sat down to the frugal meal around the heavy deal table made by Henry O'Neill. All the furniture in that simple room had been gradually added to by this quiet strong man of kindly face and young Nathan was growing to be a very handy assistant.

After a simple grace had been said Mrs. O'Neill rose and poured hot hemlock tea into each cup and passing him she brushed her hand caringly over his curly hair. "Was it the apples kept you so long, Henry? I worried about you."

"Well now, bringing the apples made me nearly forget the main thing that happened today. I met Ben Morton at the Post Office and he asked me if I knew about the camp meeting they're going to have on John Bows-lough's farm. He was just going down to see how they were getting along and I went with him. Say, Jenny" and he brought his hand down hard on the table, "it's going to be wonderful, the greatest thing that could happen to this place around here. It starts next Thursday and lasts till Monday morning and we're going, every one of us."

"Oh I'm so glad Henry. Can it be true?" she said as swift tears of emotion filled her eyes momentarily. "We missed it last year at Smithville and I've always been sorry."

"We're not going to miss this one, I ordered a wooden tent right beside Ben's and we're going to stay the whole four days. I've planned it all. I think one of the Walker boys will come over and tend the stock; they're Presbyterians so won't be coming to stay all the time. Anyway we'll get somebody."

"Camp meeting!" said Carrie joyfully "Oh, Janet Morton was at Smithville and said she'd never want to miss another."

"I picked up Sam Crosby on the way and took him home. He got too much hard cider, they thought they had it hid from him but he found it. I told him of the camp meeting."

"The old fellow, I have no patience with him. I hope he doesn't take a notion to come. Surely he and that crowd will stay away" said Mrs. O'Neill.

"Well now, I don't know, I hope he'll come. That's why I told him. Isn't that what camp meetings are for, to save sinners' wife?"

"Oh yes, I know Pa, but I hate that man" said Carrie vehemently. "It seems he's always drunk."

"I agree with Carrie, Henry. I do feel so sorry for his poor little wife, yet she sticks to him, and now I suppose he'll drink hard cider till it's all gone."

"Well at least that won't cost him anything. Sam's not so bad when he's sober" defended Henry, "and I mean

## Social and Personal

Miss Shet Coulmer is spending a few days this week in Montreal.

Mr. A. Ing's of the Bank of Commerce staff is spending Thanksgiving at his home at Gifford.

Mr. and Mrs. Milton, lover of Toronto were Sunday guests at the home of Mr. and Mrs. C. J. Love.

Mr. and Mrs. Walford and son and Miss G. Durham spent the weekend at Erie, Pa.

Mrs. Harry Marsh and son, Norton, of Toronto, are spending the week in Grimsby.

Mrs. R. J. Driver, of Brockville, was guest at the home of Mr. Walter McRaye, Maple Ave., over the weekend.

Mr. and Mrs. Herbert Alston have sold their home on Livingston Ave. and are residing in Hamilton prior to going to Florida for the winter the beginning of December.

Rev. Harvey Merritt, Mrs. Glen Harrod, Mrs. A. P. Norton and Mrs. Frank Cooper are delegates to the Baptist Convention being held in Windsor this week.

## BRIDE ELECT FETED AT MANY FUNCTIONS

Miss Hilda Mould is being much feted at various social functions and showers prior to her marriage which takes place the fore part of next month. Recently in Toronto Mrs. Harold Mould, aunt of Miss Mould, entertained at her home when a number of relatives gathered for a fifteen shower.

On Wednesday evening of last week Mrs. Robert Walters and Mrs. Charles Lounsbury of Grimsby, Beach were joint hostesses at a party shower at the English Inn, about seventy-five friends being present for the occasion. The evening was pleasantly spent in playing cards and dancing. Light refreshments being served during the evening. The bride-elect was the recipient of a host of gifts accompanied by the good wishes of her friends.

On Monday evening her Associates of the Bell Telephone Co. took the opportunity to honor Miss Mould on the occasion of her approaching marriage when they gathered at the Telephone office and presented her with a handsome occasional chair. This presentation was made by Mr. L. Patroul, District Commercial Manager who, on behalf of the staff, expressed regret at losing one who had been an efficient and valued member of the local staff for over ten years and took occasion to extend their best wishes for a happy wedded life. The evening was spent in playing cards after which dainty refreshments were served.

The Bridge Club of which Miss Hilda Mould is a member paid a surprise visit to her home on Tuesday evening to honor her prior to her coming marriage. After a suitable presentation was made, bridge tables were set up and a happy few hours spent. At the close of the evening delicious refreshments were served.

To make it my special duty to ask him to come" he added firmly. "He'll make himself a nuisance and spoil things I'm afraid," said Mrs. O'Neill.

"But the Camp Meeting is for sinners, isn't it Jenny?" he persisted. "Yes, God forgive my self-righteousness. I can't help it. Carrie you finish that homespun for Nathan's suit and I'll start making it; a lot of work must be done."

The young girl seated herself at the loom in front of the fireplace and soon the noisy clatter of the shuttles filled the room. Mrs. O'Neill began cutting the cloth already finished. Let's fit these pants to you Nathan before you go to bed. You'll have new ones for the camp meeting."

(To Be Continued)

## Historical Notes—Wm. Beamer's Cider Press

Pioneers were forced to be jacks-of-all-trades and Wm. Beamer was of a very inventive turn of mind. Among other inventions he made the first reaping machine and, although it was so heavy it took four or five horses to draw it, yet it worked and was used for many years.

The Cider Press and how it was made. A 30 foot oak log was mortised horizontally into the trunk of a huge standing walnut tree, on the old Beamer orchard, the first apple orchard in Grimsby. Underneath this was placed a big vat which during the apple season from the orchard were then placed on top of the apples and then great log was loosened of let down notch by notch from the cantalings that supported the tree. As the weight of the log descended the cider was pressed out from the pips, the liquid running out the spout the bottom of the vat into a large tub placed in a big hole in the ground immediately under the spout.

## INTERESTING MEETING OF MOTHERS' CLUB

The ladies of the Mothers' Club spent a pleasant afternoon at the home of Mrs. Sallows on Thursday last with twenty-three mothers and twelve grandmothers present. One great grandmother, her daughter, granddaughter and great granddaughter namely Mrs. Hizer, Mrs. Kammacher Sr., Mrs. Mogg and Miss Joyce Mogg made an interesting group. Mrs. Burgess gave a delightful talk on her trip to India and the customs there. The program consisted of two readings by Miss Margaret Stevenson, a trio by Miss May Crittenden and Alvin and Miss Dorothy Spencer then followed a solo by Miss Betty Theal and a piano duet by Mrs. Frank Merritt and daughter, Audrey. A dainty lunch was served by the committee and a social half hour spent.

## Thanksgiving Day Thursday, Oct. 24th

Thanksgiving Day will be observed Thursday of this week, October 24th. It is a change from the Monday holiday which has been the custom for some years past, a move which some merchants opposed, but one approved by the clergy.

When the federal government decided to hold election day on the 14th it became necessary to change the date of Thanksgiving Day, originally set for that day to Thursday, the 24th.

## Licenses of Reckless And Intoxicated Drivers Suspended

Following the policy of Hon. T. B. McQuesten, minister of highways, to reduce the accident toll in Ontario by use of the power to suspend the licenses of reckless and intoxicated drivers, as well as those who show lack of financial responsibility, the months of September showed put into effect the greatest number of suspensions ever imposed in a single month. There were 624 drivers deprived of their right to operate a motor vehicle, or approximately one for every thousand and licensed drivers. There were, as well, 5,140 licenses in abeyance under financial responsibility findings, bringing the total of those denied the privilege of driving to one out of every 130.

The claim that these suspensions show better enforcement of the Highway Traffic act, and not an increase in the number of dangerous drivers, is borne out by a sharp drop in the number of auto fatalities.

Some interesting statistics are available in connection with the suspensions. More than half of those imposed in September were for reckless driving. The number of suspensions for driving while intoxicated set a high, though the total for the first nine months of the year was 10 per cent. below the total for the same months in 1931. The number of women whose licenses were suspended was only 25, compared to 569 men.

## 9 Year Old Son Of William Tufford Loses Life In Fall

Desire to dislodge a pigeon from its perch just under the roof of his father's barn cost the life of 9-year-old David Tufford, son of Mr. and Mrs. William Tufford, Clinton Township, on Saturday afternoon.

Together with his 6-year-old brother Evan, and another young boy, the child had climbed a ladder to the top of a hay mow in the barn and then walked out on a beam some thirty feet above the floor.

With a pitchfork in his hand he was attempting to dislodge the pigeon when in some manner he overbalanced and fell to the floor, suffering a fatal head injury.

The father, called to the barn by the 6-year-old child, was carrying the injured boy to the house when he passed away.

## Carload Shipments Of Grapes About Completed Pears Being Harvested

Not before in a quarter of a century have grapes been so cheap as now. Grapes are, it is reported, being sold at as low as \$10 and \$12 a ton, as there is such small demand. Having big stocks of wine on hand, the growers are not buying many grapes, growers say. Some of the large wineries own their own vineyards and grow their own grapes.

Large quantities of grapes were offered on the St. Catharines market October 15th at 10 and 15 cents a six-quart basket and from 50 to 75 cents

## OBITUARY

George A. Elliott

George A. Elliott, formerly of 193 West avenue north, Hamilton, died suddenly Friday morning at the residence of his sister, Mrs. James Clark, Melville street, Dundas. Mr. Elliott was born in Saltfleet township 48 years ago, and had lived the greater part of his life in Hamilton, moving to Dundas a year ago. He was a member of Pilgrim United church. Left to mourn his death are seven brothers; John, Robert A., Irving M., Harry D., Fred and Gordon W., all of Hamilton, and Arton B., in Vancouver; and three sisters, Mrs. James Clark, of Dundas, wife of ex-Chief Clark; Mrs. Adeleine Robins and Mrs. H. R. Hull, of Hamilton. The funeral took place from the funeral home of Dodsworth, Marriott & Brown on Monday afternoon. Interment was made in Hamilton cemetery.

Mrs. Henry Porter

The death occurred on Saturday of Mrs. Henry Porter, of Brunswick street, Saltfleet, at the home of Mrs. Frederick Gould, Osborne street, Saltfleet. The deceased lady was 68 years of age and her passing followed a brief illness. She was born in England, but had lived in this district practically all her life. She attended the United church and belonged to the L.O.B.A., No. 259. Left to mourn are her husband; four sons, William Henry, George, John and Samuel, all of Hamilton; a daughter, Mrs. C. E. St. John, Hamilton; a brother, Daniel John Buckley, Waterbury, Conn.; three sisters, Mrs. William Carr, Mrs. Patrick Brick, of Waterbury, and Mrs. Robert Long, Hamilton, and 28 grandchildren. The funeral was held from the L. G. Wallace funeral home on Tuesday, thence to Eastlawn cemetery.

Enjoyable readings were also given by Mrs. Sanders and Mr. Lotbman. The gathering dispersed after singing Old Lang Syne.

## Congregation Enjoys Social Hour At United Church Manse

The United Church manse was the scene of a happy gathering on Friday when the members of the congregation were entertained at a social hour sponsored by the Woman's Association. The spacious rooms were crowded during the evening which was featured by a Post Office to which each one brought a gift, in turn acquiring another parcel, the gifts being practical and useful ones.

Rev. and Mrs. Earchman and Mrs. T. R. Hunter, President of the Association, received the guests.

An excellent program of musical numbers added to the pleasure of the occasion and included vocal solos by Miss Flora Alton, Mrs. G. L. Eaton and Mrs. H. Betzner and a piano duet by Miss Mary Irvin and Miss Agnes Kennedy.

The dining table where Mrs. Murray Beamer, Mrs. Patterson and Mrs. Addison poured tea was very pretty with a centre bowl of pink roses and snapdragon while much interest was taken in the tea cups as they were read by learned tea cup seers of the congregation.

A substantial amount was realized as a result of the event.

## Claim Of Rector And Parish For \$15,000 Dismissed

The claim of the rector and parish of St. John's church, Ancaster, against the General Trusts corporation, executors of the will of the late Dr. T. D. J. Farmer, for \$15,000 for the purpose of erecting a parish hall and \$5,000 for efflowing the same was dismissed by Justice Jeffrey in supreme court Saturday morning. His Lordship reserved the question of costs, intimating that he would like to find some precedent enabling him to grant the church's costs from the Farmer estate. He definitely declared that the defendants would not be allowed costs against the plaintiff.

## BOGUS BILLS

A number of bogus United States bank notes of \$10 and \$5 denomination have been placed in circulation at Niagara Falls, and merchants have been warned to be on the look out for the bills. A number of the \$5 bills have been photographed from good notes, and it is only by the paper that it is possible to detect them.

a bushel.

The grape-growers contend that there must be some better outlet for their grapes or the industry will continue in its present state. Suggestions are made that the beverage rooms be allowed to sell wine as well as beer on the one permit, as it is claimed customers often ask for wine in the beverage rooms and have to be refused.

## BANQUET TO MR. & MRS. SANDERS

(Continued from page 1)

ture of these two esteemed citizens they extended, on behalf of the gathering, heartfelt good wishes for their success and welfare in the home and to which they were returning after spending several years in Grimsby.

Mr. and Mrs. Sanders in acknowledging the kind sentiments expressed, spoke of the happy relationships which they were severing and voiced appreciation of the many kindnesses shown them while residents here. Mr. Sanders, in alluding to the establishment of the Grimsby Dairy, extended cordial thanks for the loyalty and co-operation of both employees and shippers, referring to the fact that the Dairy provided an outlet to the dairy farmer in the immediate vicinity for his product which previously had been shipped to Hamilton. He also took occasion to acknowledge the co-operation given by the town fathers and citizens in general. Particular mention was made of the loyalty and faithfulness of two employees of the Dairy associated with it since its establishment, Messrs. Albert Helmes and Thomas Fox.

Mrs. Sanders was made the recipient of a beautiful bouquet of chrysanthemums by patrons and employees of the Dairy, the presentation being made by little Miss Francis Duck.

Other toasts honored were: To Mr. and Mrs. Harris, the new proprietors of the Grimsby Dairy, proposed by Reeve Mogg and responded to by Mr. and Mrs. Harris; To the ladies, proposed by Councillor William Lotbman and responded to by Mrs. Duck, and Mrs. Secor, and the toast to The Press, proposed by J. Charles West and responded to by Clive S. Bean, Publisher of The Independent.

Enjoyable readings were also given by Mrs. Sanders and Mr. Lotbman. The gathering dispersed after singing Old Lang Syne.

## R. H. ST. JOHN HEADS LODGE

(Continued from page 1)

board of Ancaster. An important feature of the evening was the presentation to Grimsby Lodge of the "Mac Lockhart" Travelling Gavel, made in an impressive manner, it having started its journey in Reed District No. 1, Windsor in 1931 and has made forty visits to date. From Grimsby, the gavel goes to Hamilton after the expiration of a month and from there to Elora following the same interval.

A sumptuous repast was served in the banquet hall followed by a most inspiring address by Mayor N. J. M. Lockhart, M. P. of St. Catharines, past Grand Master of the I. O. O. F. and Grand Treasurer in the province for several years.

Oddfellows in large numbers were present from Port Colborne, Welland, Merriton, St. Catharines, Beamsville, Hamilton and Dundas.

The officers were installed as follows: N.G.—R. H. St. John; V.G.—Arthur Parsonage; Chaplain—R. G. Hurbes; Warden—William Aldrick; Conductor—Elmer Walters; R. S. Supporter—Albert Axworthy; L. S. Supporter—Watson McPherson; R.S.N.G.—N. Walker; L.S.N.G.—E. LePage; R.S.V.G.—F. Schwab; L.S.V.G.—R. Wadge; Inside Guardian—A. Stevenson; Outside Guardian—A. Dipper.

## NOMINATIONS ON NOV. 22ND

(Continued from page 1)

has been a valued member of the council for a number of years, two years of which he acted as chairman of the Finance Committee, a position for which he is especially qualified, informed The Independent that it was not his intention to again be a candidate. The duties of his present position preclude him from aspiring to the higher offices of Mayor or Reeve and having given a number of years service to the community as a member of the council he has decided to retire from office.

Councillor A. B. Bourne who enjoys the distinction of having served in the council for a longer period than any present member of that body and who has been chairman of the Board of Works this year, expressed his willingness to again serve in that position as he would like to see some of the road projects suggested this year completed next year. Two roads, Nelson Boulevard and Maple Avenue were put in excellent shape this year and several others remain to be done.

Reeve Mogg had no definite announcement to make at this time as to whether he would again stand for office while Councillors Wilkins, Lewis, Palmer and Chivers also were not prepared to state whether they would be in the field.

## BEAMSVILLE—

Mrs. Julius Oshier was rushed to St. Joseph's hospital by Dr. C. W. Elmore Thursday morning suffering from an attack of appendicitis.

What your Telephone does for you...  
Keeps you in touch with neighbours and friends.  
Makes your shopping a whole lot easier.  
Calls the Doctor in sudden illness or accident.  
Enables you to arrange social affairs and meetings.  
Summons help when fire breaks out.  
Maintains business contacts when you're forced to stay home.  
Gets replacement when essential home services break down.

WHEN the electric wiring gets out of kilter... or a pipe bursts... or the roof springs a leak... or the car gets balky and refuses to leave the garage... and you need skilled help in a hurry... call it by telephone, that ever-ready sentinel of safety in big or little emergency. You are never stuck when you have a telephone.

"THE Value OF YOUR TELEPHONE IS JUST WHAT YOU MAKE IT"

## SEEK REALIGNMENT OF RADIO STATIONS

20 To 40 Super-power Plants Considered For U.S. System.—Locations On Border.

Washington.—A study aimed at re-aligning the United States radio system to provide from 20 to 40 super-powered stations and probably 150 new low-powered ones has been undertaken by engineers of the federal commission.

Plans under consideration are said to call for the establishment of high-powered stations on the Canadian and Mexican borders. These stations, however, would operate with directional antennae, throwing most of their power inland and away from the border stations of Canada and Mexico.

Radio experts familiar with the plan said that the recommendations brought in by the engineers after their study of the field might or might not be approved, but that in any event it would take a year or so to work out the realignment of the present band.

They said the idea originated from the successful experimental operation of Station WLW at Cincinnati on 500,000 watts, the only station in the United States of that power.

As tentatively worked out, the plan was described as calling for: Clear Three Channels Establishment of from 20 to 40 stations of around 500,000 watts, clearing three new channels on the broadcasting band between 1,500 and 1,600 kilocycles, and assigning up to 50 small low-powered stations to each of these cleared channels.

Experts said that such an assignment would be in line with engineering advances that have been made in the last several years, since the present general system was worked out. In some quarters, it was expected that the plan would call for assignment of most of the super-powered stations to chain broadcasting, with the new low-powered units to give local service to small areas.

The study was started last January with a view to improving programs for rural listeners. A report was to be made within a year.

Millions of farmers were said to be in communities which had little or no broadcast service. Some experts said the use of such a plan would give a group of high-powered stations so situated geographically as to be able to penetrate to practically any section of the country, along with new, small stations which could serve the needs of the individual communities.

### Consult Canada, Mexico

Ottawa.—Before any general plan was considered finally by the United States which would involve the setting up in that country of super-powered radio stations each of 500,000 watts power, Canada and Mexico would be invited to confer with Washington on the proposal, as it would involve probable interferences with broadcasting operations here and in Mexico, it was stated last week. No invitation to such a conference has been received here.

The only information available in Ottawa is that late last Spring the federal communications committee in the United States set up a committee to consider the question of improvements in broadcasting in that country. Some 630-odd stations are functioning in the United States and the committee was named. It was stated to study how broadcasting services there could be improved and clarified without causing interference to countries on either side of the Republic. Since then no intimation of the likely attitude of the committee has been communicated here.

## ON THE AIR

Dominion Department of Agriculture To Give Series Of Radio Talks.

The Dominion Department of Agriculture will again be on the air each Thursday evening during the forthcoming winter months over the Coast to Coast network of the Canadian Radio Commission stations at 5.20 to 5.30 p.m., Eastern Standard Time, from Montreal over the French network, from 8.20 to 8.30 p.m., Eastern Standard Time, for the Maritime Provinces, Ontario, Quebec and the Prairie Provinces, and for the British Columbia network from Vancouver 9 to 9.10 p.m., Pacific Time. This season the same title for the series of talks will be used, namely, *Rumors and Dividends in Agriculture*. Each talk will be of 10 minutes duration. The season's programme includes a variety of subjects which should be of interest to everyone.

"The most important advance I have noted in the nation during my lifetime is the growth of the spirit of compassion."—Elihu Root.

## 'It Is A Boy'

The British Empire Hails The Glad Tidings That A Son Is Born to the Popular Duke and Duchess of Kent.

LONDON.—Great Britain rejoiced on Oct. 9th as news flashed to the nation that a boy had been born to the Duke and Duchess of Kent.

Special late editions of the newspapers carried the news to the Empire.

"It's a boy," was the unconventional way many spread the glad tidings of the birth of a Prince to Britain's royal house.

Crowds gathered outside the City Guild Hall and the Home Office, where in accordance with established practice bulletins were posted.

Outside the home of the Duke and Duchess, little knots of women and girls gathered to discuss the news, glancing up at the windows of the happy royal home.

Hours before, the Duke of Kent had revealed his princely pride when soon after the initial announcement, he appeared at the front door, pale but smiling, and waved his hand to the subdued cheering of a small crowd.

Both mother and son were reported doing well.

It was considered a happy coincidence that the Duke's son, the seventh in the line of succession to the throne, was born precisely one year after the King granted Prince George the titles, the Duke of Kent, the Earl of St. Andrews and Baron Downpatrick.

Scarcely had the father been told by doctors of the arrival of a son in his household when a telephone call was made to Sandringham, where the King and Queen are in residence.

Other messages were sent to the Prince of Wales, the Duke of Gloucester and the Princess Royal, Victoria Alexandra Alice Mary.

The Duke's son will rank as "sixth gentleman in the land," being preceded by King George, the Prince of Wales, the Duke of York, the Duke of Gloucester and his own father. In the line of succession to the throne, he will stand after Princesses Elizabeth and Margaret, who are children of the Duke of York, but he will take precedence over the Princess Royal's two sons.

The baby is the King's third grand-son.

Hundreds of congratulatory messages arrived at the Belgrave Square residence, among them a personal congratulation from the King and Queen. The telephone line from Sandringham was busy handling inquiries while Prince and Princess Nicholas of Greece kept in close touch with the house. The Prince and Princess had waited all night with the Duke. Sir John Simon, Home Secretary was the Minister in attendance, as required by British law at the birth of a possible heir to the throne.

Prince George, fourth and youngest son of their majesties, was created Duke of Kent a year ago, shortly before his marriage to Princess Marina, daughter of Prince Nicholas of Greece and grand-daughter of former King George of Greece.

The wedding, which took place in Westminster Abbey November 29, was the occasion for a great outburst of national rejoicing. London celebrated with such festivity as had not been seen for many years.

The Duke of Kent, who is 32 years of age, was born at Sandringham. He was for a time a Lieutenant in the Royal Navy. In 1923 he was created a Knight of the Order of the Garter. In 1934 he was made a Knight Grand Cross of the Royal Victorian Order, the following year a Knight Grand Cross of the most distinguished Order of St. Michael and St. George. The Duchess is 28 years of age.

"I'm the happiest man in the world that it's a boy," Prince George, the baby's father, told prominent Britons who called at his home to congratulate the family. "The event was the quietest matter for all concerned and the Duchess is as well as could be expected. So is the boy."

**Swarm Of Wasps Rout Pack Train**

Vancouver.—Wasps are numerous throughout British Columbia this year. Hundreds of nests honeycomb the rocky ground of the Cariboo district and on Vancouver Island.

"You can stand still anywhere in the woods, listen quietly, and hear a humming like a flock of distant airplanes," a logger in the Courtenay district of Vancouver Island reports.

He told of finding an area where a bear had demolished a dozen nests in the space of a quarter of a mile, feasting on the young wasps it found.

Many nests are situated on the Forbidden Plateau and pack trains are often attacked by the stingers. Horses rear and plunge as the swarms sail in to the attack. The stings remain with the horses only a few minutes.

"It is certain that thought may be transmitted from one individual to another, even if they are separated by long distance."—Dr. Alexis Carrel.

## A Cracking Good Stunt

Thrills galore featured the Cleveland, O., motor rodeo when Jimmy Lynch and his "Devil Dodgers" went into action. In this opener, a steel-bodied car pictured in the air as it crashes through heavy wooden fence.

## Music in School

Not a Frill, But a Necessity, Says Speaker at Recent Teachers' Meeting

Kincardine.—Public school teachers of West Bruce met recently. Mayor J. G. Ellenton, welcoming the teachers, pointed out they are builders of the future citizens and urged them to regard their office as more than a mere job.

More than 125 teachers were in attendance at the convention opened. In her address, Miss McGilivray said that more use of the strap at home would require less of it in schools. She pointed out the inspector is a friend and counsellor, who would help the child and teacher to better knowledge.

**Sacrifices Needed** Rural school pupils are called on to make sacrifices, so should rural school teachers, by giving full education to pupils whose school years will be limited. She urged music in all schools, not as a frill but a necessity. Teachers in rural schools who scorn farms should not be allowed to teach in rural districts, she opined. W. K. F. Kendrick, B.A., Paed of Toronto Normal School, in his address on methods of teaching history warned against a narrow outlook and suggested a revision of teaching methods. He urged teachers to give to pupils an appreciation of their own surroundings so that the desire would not be to get away from their homes. In teaching, he urged a natural attitude on the part of the teachers.

## POTATO PRICES

REMAIN LOW

Good Yield in West Will Keep Ontario Prices Close to Present Level

Toronto.—Indications of increasing prices in potatoes are found in the fact that growers in the Orangeville district have gone into a potato pool and have already stored 20,000 bags in ground pits is await the top price. It was stated it will be possible to import Ontario potatoes from the west and do so profitably in spite of the heavy freight rates.

Potatoes in Western Canada can be bought for 25 and 30 cents per bag, which means that with a freight rate of 60 cents per cwt., they could be laid down in Toronto at slightly more than a range of 91 to 95 cents. Current prices for Ontario potatoes run from 95 to \$1 per bag.

Trade opinions expressed was to the effect that producers in Ontario have little chance of controlling the price. Despite the lighter yield it is estimated the 1935 crop in the Dominion will be just about sufficient to make up the home requirements until the 1936 crop is available. There will be little or no chance of exporting potatoes this year.

Reports issued from Fredericton and Ottawa, however, seem to have added fuel to the trade war fire. Unofficial estimates from Fredericton were to the effect that the New Brunswick crop this year would not exceed more than 7,000,000 bushels of seed and table varieties, compared with last year's mark of between 10,000,000 bushels and 11,000,000 bushels. The average year's crop is about 9,000,000 bushels.

Bureau of Statistics reported a decrease of 29.3 per cent, or nearly 3,000,000 cwt., in Canada's estimated potato crop for the year, compared with last year. The acreage was reduced by 10.8 per cent, while the yield per acre was 30.7 per cent. below last year.

## N.S. Steel Plant Employment Gains

Sydney, N.S.—The Dominion Steel and Coal Corporation's steel plant here now has 2,100 men on its payroll—the largest working force since 1929. Corporation officials said recently the force would be maintained at that number until the close of navigation on the St. Lawrence river. The rise in employment during the past few months was due to increased rail orders from South Africa, which, with smaller orders, kept the plant working full time.

About 7,000 tons of the 9,000-ton rail order for South Africa have been rolled and will go forward shortly.

## Poultry May Be Tattooed To Halt Loss By Theft

Guelph.—Possibility that poultrymen of Western Ontario will resort to tattooing of poultry in an effort to halt chicken thieving in this section of the province is seen as a result of a suggestion approved at a recent meeting of the Western Ontario Poultry Association. Serious losses suffered by farmers and poultry raisers in recent years led him to a discussion of ways and means of thwarting thieves, and it was the general opinion of the meeting that tattooing would be an effective method.

Officers of the association were elected as follows: President, A. J. Newland, Galt; vice-president, F. Hayes, Hamilton, and W. Tew, Stratford.

## \$42,993,971 Rise In Six Months

Canadian Export and Import Figures Soar—September Revenues Up.

Ottawa.—The department of national revenue last week reported Canada's exports during September showed an increase of more than \$6,000,000 as compared with the corresponding month last year, and that exports for the six months ended September 30 were up \$26,078,637 against the same period in 1934. Imports for the month increased \$2,571,827 over the same month in 1934. For six months imports increased \$16,915,334. The total trade increase, therefore, for six months is \$42,993,971.

September exports were valued at \$64,564,915, compared with \$58,135,136 in September, 1934, while the value of the first six months of this year was \$343,111,180, against \$317,692,548 last year.

Imports during September were valued at \$44,779,329, compared with \$42,507,502 in September, 1934. The six months' total was \$240,662,027 this year, compared with \$235,746,023 in 1934.

Revenue from customs and excise for September was \$19,537,657, which was \$440,852 more than the corresponding month in 1934. For six months the revenue was \$111,690,723, which was \$1,409,554 below the total for the corresponding six months last year.

Income taxes for September were \$2,479,024, an increase of \$381,111 over September, 1934. For the six months income taxes totalled \$68,707,436, which was an increase of \$10,465,978 over the corresponding six months in 1934.

Farmers who abandoned their drifting soil farms in the southwest of Saskatchewan during the dry years will not go back. That is the opinion of Dr. C. C. Spence of the economic branch of the federal department of agriculture.

## Bankers Cheered, Heavier Deposits

Eleven Banks Report \$500,000,000 Increase In Three Months

NEW YORK.—New York's leading banks are struggling up the hill to profits under the burden of heavier deposits.

The load is severe, financial circles insist, inasmuch as the first 11 condition statements, issued last week, indicated the banks are hard pressed to find places where the funds may be put out for hire at a satisfactory return.

Bankers who cast up totals at the week-end noted the aggregate deposits total of the first 11 banks to report had increased by somewhat more than \$500,000,000 in the short space of three months. On the other hand, it was noted the relatively small net changes in commercial loan totals showed this important channel into which deposits normally flow had not thawed out.

Many industrial corporations which usually lean on the banks for commercial funds, already have more cash on hand than they need.

## Overeating Causes Ache Not the Pie, Says Expert

Chicago.—It isn't the pie, but overeating, that brings on the "great tummy ache," Monroe Strauss, Los Angeles, told the National Restaurant Association recently.

"The properly made pie is highly digestible," asserted Strauss, who was introduced as the champion pie maker of the United States. "But it gets the blame for the pains and over-tuffed feeling when the real trouble is overeating before the dessert course is reached."

The best advice on dining was mother's injunction: "Save room for that pie, sonny," he added.

## Rickets Patients Not to be Found

Detroit Can't Find a Case For Dr. Alan Brown

Detroit.—Plans of Dr. Alan G. Brown, Toronto child specialist, to demonstrate treatment for rickets before the International Medical Assembly here recently went awry for lack of a subject to demonstrate on.

"What, no rickets patients?" exclaimed Dr. Brown when Dr. Louis Gariepy, clinic committee head, told him a committee canvass of all Detroit hospitals failed to reveal a single person suffering from rickets.

Dr. Brown went on with his discussion of the disease without a subject. He declared he has yet to see the case of rickets that will not respond to treatment.

"Plain, biologically pure cod liver oil is still the best remedy to administer to the child with rickets," he said. "Don't let the child decide whether you will administer it. That is the trouble in these latter days: most mothers begin the day their babies are born to let the babies decide what shall be done about things."

## Two Days' Hunting Of Pheasants Is Set

Nov. 1 and 2 in Six Counties Announced—May Be Widened

Toronto.—A two-day open season for ring neck pheasants—Nov. 1 and Nov. 2—in the counties of Middlesex, Kent, Essex, Haldimand, Lincoln and Welland is officially announced from the office of Hon. Harry C. Nixon, minister of game and fisheries.

Pheasant shooting on these two days may also be permitted in the counties of Ontario, Durham and Northumberland, although the department has not definitely made up its mind on this point. There will be no open season in York, Peel, Halton or Wentworth.

The second two-day shoot of this Fall on Pelee Island will also be held on Nov. 1 and Nov. 2, with local restrictions as well as departmental regulations applying.

## New Woman M.P. Authority on Wild Flowers of Canada

Mrs. George Black Cultivated Hobby More Fully During Stay in Yukon.

Ottawa.—The election of Mrs. George Black as Independent Conservative from Yukon, the seat her husband, the former House Speaker, represented from 1921 till this year gave to the House two women members as Miss Agnes Macphail was returned from Grey-Bruce.

Mrs. Black will be in familiar surroundings in Ottawa. As wife of

the Speaker who sat from 1930 until he had to retire the beginning of last session, Mrs. Black was a charming hostess, popular with members of all parties.

Wild flowers of Canada gave her an absorbing interest, and she is known as an authority on them. Living for a time in the Yukon, during the period when her husband was gold commissioner and since he represented that far northern constituency, Mrs. Black was able to cultivate this hobby in a field which few women could draw on. During the short season the valleys of the Yukon district produce beautiful flowers, and Mrs. Black became familiar with the varieties there. She is known as a lecturer and writer on Canadian wild flowers.

The switch in political fortune will place Mrs. Black on the Opposition side of the Commons, where Miss Agnes Macphail, so long sole woman member of the Lower Chamber, has sat for years. While the process is a very gradual one, women are increasing their representation in both Commons and Senate. In the Upper Chamber there are now two women members.

## Flashes

Condition-figures for the late sown crops in Canada in 1935, including peas, beans, buckwheat, corn, potatoes, alfalfa, and sugar beets, states the Dominion Bureau of Statistics, indicate that yields will be slightly below average but above the level of 1934.

The preliminary estimate of the total production of wheat in Canada in 1935 at 290,541,000 bushels is 14,692,000 bushels, or 5.3 per cent. above the 1934 unreviewed estimate, according to the Dominion Bureau of Statistics. The quality of the crop this year is definitely poorer than that of the 1934 crop.

A spoonful of honey dissolved in a glass of warm milk is used as a creator of energy by Finnish athletes before undertaking strenuous exertion. During long distance marathons they take a very small portion of honey, a little on the tongue only, as a reviver.

"If you had your choice, would you work for eight hours a day and retire on a full pension at forty-five; or would you rather work four hours a day and continue to work until you were seventy?" — George Bernard Shaw.

## THE MARKETS

### PRODUCE PRICES

United Farmers' Co-operative Co. Saturday were paying the following prices for produce:

EGGS—With cases returned, "A" large, 23c; "A" medium, 22c; "A" pullets, 24c; "B", 22c; "C", 19c.

BUTTER—Ontario No. 1 solids, 24c; No. 2, 23½c.

### POULTRY:

(Quotations in cents.)

	Live	Dressed	Milked
	"A"	"A"	"A"
Hens:			
Over 5 lbs.	12	14	
4 to 5 lbs.	11	13	
3 to 4 lbs.	10	12	
Old roosters	7	9	
Spring chickens			
Over 6 lbs.	16	20	
5 to 6 lbs.	15	19	
4 to 5 lbs.	14	18	
Under 4½ lbs	12	16	
Spring broilers			
1½ to 2½ lbs.	12	16	
Fresh turkeys, dressed, 24 to 25c lb.			
Fresh geese, dressed, 12 to 14c lb.			

### WHOLESALE PROVISIONS

Wholesale provision dealers are quoting the following prices to the Toronto retail trade:

Pork—Ham, 20½c; shoulders, 15c; butts, 15c; pork loins, 21c; picnic, 14½c.

Lard—Pure tierces, 15½c; tubs, 16c; rolls, 16½c; prints, 16c.

Shortening—Tierces, 10½c; tubs, 11½c; rolls, 11½c; prints, 11½c.

### HAY AND STRAW

No. 2 timothy hay, baled, ton, \$10 to \$11; No. 3 timothy hay, ton, \$8 to \$9; straw, wheat, baled, ton, \$7; oat straw, \$6.

### GRAIN QUOTATIONS

Following are yesterday's closing quotations on Toronto grain transactions for car lots, prices on basis c.i.f., bay ports—

Manitoba wheat—No. 1 Northern, 95½c; No. 2 Northern, 92½c; No. 3 Northern, 87½c; No. 4 Northern, 83½c; No. 5 Northern, 77½c.

Manitoba oats—No. 2 C.W., 39½c; No. 3 C.W., 33½c; extra No. 1 feed, 32½c; No. 1 feed, 31½c; mixed feed oats, 32c.

Manitoba barley—No. 3 C.W., 30c; No. 1 feed screenings, \$14.50 per ton; South African corn, 65c.

Ontario grain, approximate prices: track shipping, point—Wheat, 75 to 76c; oats, 29 to 30c; barley, 30 to 32c; corn, 52 to 55c; rye, 37 to 40c; malting barley, 44 to 45c.

## Voice of the Press

### CANADA

#### THEY HAVE THE BIG IDEA

There was an item in the "Star" papers recently and by actual measure it received one inch of space. But it told a good deal. It came from Amulet, Sask., and said that farmers of that district were shipping truckloads of carrots to less fortunate farmers in the north. In dried-out years — and Amulet had its share of them — farmers there received supplies of vegetables from other sections. Now they find themselves in a position to help and they know where others are who need help, so they are keeping the thing going.

It is well that these farmers in Saskatchewan shipped vegetables to those in need; it is well that some person who heard about it had the good sense to see that it got in the newspapers. What a world we would have if the farmers-and-carrots idea began to expand! — R. Ratford Beacon-Herald.

#### BEFORE DAYS OF ROUGE

After listening to the usual damaging comparison between the girls of today and the girls of years ago, port Miss Teenage remarked: "Well, if they were all so darned innocent, how did they know when to blush?" — Exchange.

#### FLYING DOCTORS

In Canada we have no official "flying doctor" service such as Australia possesses, but invaluable aid has been rendered for some considerable time past by the Canadian Airways Service. The ambulance notes of the company contain scores of records of flights, varying in length from ten to several hundred miles, all of which were made in response to urgent appeals for transportation and which in most cases definitely meant the saving of life.

In Canada air transport has completely transformed the service of government medical officers, as may be seen from a record of a recent tour of camps in western Ontario, when in less than four hours a doctor using a plane was able to visit four different camps, carrying out complete inspections and travelling 192 miles, in less than four hours. Aeroplanes service has also made medical service possible over territories which in bygone years were covered only by dog teams making one trip per season. This is now replaced by many trips per season in comfort over a vastly larger area at considerably less cost, and without the grave risks that inevitably attended the dog team tours. — Star, Montreal.

#### WILL STRIKE EASILY

Year round exposure of the sun makes the skin rough and dry, so the nudists can easily strike their matches. — Brandon Sun.

#### PREVENT WAR ANYWHERE

"The best way to keep America out of war is to do what we can to prevent there being a war anywhere into which she can be drawn," says Newton D. Baker. And he might have added that in these modern days it is hardly possible to start a war anywhere, in which most of the nations of the world would not be involved. — Chatham News.

#### SLEEPLESS, DRINKS TEA

A Toronto morning newspaper produced a picture of Mussolini already familiar — a picture of the fellow with a terrible scowl on his face, wearing a steel helmet. Above was the caption: "Sleepless, Drinks Tea." One finds it difficult to feel any quickening of the pulse over it. One's approach to a nervous breakdown. One feels that, had the nervous breakdown been complete and occurred some ten years ago, the world would be a happier place to day.

Furthermore, when one learns that he has been drinking, not Caylon or China tea, but Camomile tea, one loses reverence even for the steel tint on his head.

We have drunk that stuff. One drops dried Camomile flowers into a tea pot and pours hot water on them. If one desires one adds a little mint and verbena. The result is not unlike dish water in which seaweed and peppermint drops have been steeped.

If Duce may never be wrong, but to our way of thinking anyone who drinks the stuff deserves a breakdown. Sanctions, or no Sanctions. — Hamilton Herald.

#### WEALTH OF THE NORTH

Another gold find is reported on the shores of Lake Athabasca. The riches of the north are great and even yet are barely tapped. — Edmonton Journal.

#### THE REPORTER'S PICTURE

... It is the same in newspaper reporting. The whole truth can not be told. There isn't time to write it. There isn't space enough in the paper to hold it, and if it could be all told the reader would grow weary before he had waded half-way through it. The newspaper, like the court, aims to get at the essential truth. The reporter selects his details and builds his picture, the things that do not matter he leaves out. — than a photo.

"Much nonsense is being talked of the need of certain nations to expand. Both Italy and Germany could support their present populations in comfort under a sane economic system." — Lord Strabolgi.

## Fertilizing Alfalfa Shows Results

Two Interesting Tests Reported by Department of Agriculture

According to recent statistics, alfalfa occupies approximately 22 per cent of the hay land of the county of Norfolk. It is a general benefactor in that alfalfa adds to the organic matter of the soil and by virtue of its roots gathers a very large amount of nitrogen. However, it draws heavily upon the lime, potash and phosphate of the soil, hence the necessity of care to keep up the supplies of these elements.

During recent years, the local Department of Agriculture in co-operation with the Department of Chemistry, Ontario Agricultural College, has carried out some interesting tests of top-dressing alfalfa with complete and incomplete fertilizers. The average of 4 crops shows a yield of 10,440 lbs. green hay per acre where no fertilizer was applied; 11,736 lbs. where 2-12-6 was applied; 16,520 where 0-12-15 was applied. The applications were made at the rate of 375 lbs. per acre, hence the gain of 5,080 lbs. green alfalfa hay resulting from the application of 0-12-15 was made at a cost of approximately \$5.00.

A point of special interest is that the result of the fertilizer applied to alfalfa was not exhausted the year it was applied. We have definite records on file both from Norfolk County and elsewhere which show that results of fertilizing alfalfa have shown up very definitely two and three years after the application was made. This, of course is an added profit.

During 1935 two interesting tests were conducted comparing 0-12-10, 2-12-19 and no fertilizer applied at the rate of 375 lbs. per acre. These were on the farms of Messrs. V. J. Morrison, Nixon and C. Fleming, Simcoe. The average yields were:

No fertilizer, 15,540 lbs. green alfalfa per acre; 0-12-10, 19,520 lbs. green alfalfa per acre; 2-12-19, 19,040 lbs. green alfalfa per acre.

This bears out the general experience of the Dept. of Chemistry throughout the province where the average of all tests shows that mineral fertilizers carrying phosphate and potash increase alfalfa yields approximately 25 per cent. Complete fertilizers carrying nitrogen in addition to the minerals increase alfalfa to about 25 per cent.

The best time of application of fertilizer to alfalfa is not an entirely settled question. In Michigan excellent results have been obtained from top-dressing alfalfa in the fall. The Ontario work has been done largely in the spring. It would appear that either time the addition of minerals to this valuable crop can be made at considerable profit as has already been pointed out.

Those living in the neighborhood of the tests mentioned would do well to examine the test blocks next year where undoubtedly there will still be visible evidence in increase.

## FARM ACCOUNTS

Should Have Adequate Record Of All Cash Transactions

Methods of recording financial statements relating to the farm are dealt with in detail by W. F. Chown, Accountant & Examiner, Economic Branch, Dominion Department of Agriculture, in the September quarterly issue of the Economic Analyst. An adequate record of cash transactions is a necessity in the preparation of the Income and Expenditure statement. For this purpose, says Mr. Chown, it is highly desirable to cultivate the habit of securing a voucher for each transaction at the time it takes place. These should be filed in some orderly fashion. Statements and account sales rendered by companies to whom products are sold or shipped and invoices for purchases are good vouchers. A record should be given when money is received and the particulars entered on the stub. When payments are made by cheque, the stub should be completed. Filing the foregoing, pencilled memoranda are useful and a pad and pencil in the barn or the time-honored kitchen calendar have their place in building up an adequate record but do not in themselves make up that record. From these original records, the cash book should be written up as frequently and regularly as possible by the farmer, his wife, son or daughter.

For farms operated by managers, farmers' clubs, co-operatives, and those individual farmers who are anxious to keep exact records, a columnar cash book is recommended. A columnar cash book may be purchased with the desired number of columns, or an ordinary notebook may be ruled as required. The purpose of such a book is to classify receipts and payments into whatever groupings are desired. Fuller details and illustrations of the columnar cash book are given in the article.

"Reason, as every school girl now informs us, may be only the technique of rationalizing desire." — Will Durant.

## Don't Guess But Know

Whether the "Pain" Remedy You Use is SAFE?

Don't Entrust Your Own or Your Family's Well-Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about "ASPIRIN."

He will tell you that before the discovery of "Aspirin" most "pain" remedies were advised against by physicians as bad for the stomach and, often, for the heart. Which is food for thought if you seek quick, safe relief.

Scientists rate "Aspirin" among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

"Aspirin" Tablets are made in Canada. "Aspirin" is the registered trademark of the Bayer Company, Limited. Look for the name Bayer in the form of a cross on every tablet.

**Demand and Get "ASPIRIN"**

Lady—I am collecting funds for the suffering poor.

Man—Are you sure that they are really suffering?

Lady—Oh, yes; I go around and talk to them for hours at a time and I wish you could see how miserable they are.

Day breaks but never falls. Night falls but never breaks.

Minister—Do you promise to love, honor and cherish this woman? Politician—Yes. Whatever the platform says, I subscribe to it.

## WANT QUICK RELIEF?

Then treat pain as authorities advise—with Omega Oil. Far better than internal dosing, it works down deep to correct the cause. Three times faster than ordinary liniments, safer and surer. At all drug stores, 35 cents.

**Omega Oil** RUB IT IN IT WON'T SLITHER

## Quaint WEDDING CUSTOM

When wishing happiness to the bride, many Russians still present bread and Salt. Quaint and strange customs like this are told in a picture and story in our new booklet for children: "So, all over the World". A gripping story of many lands. You would like to read it, of course, so fast send the coupon now. The book is free.

Protect Your Children! Get the widely praised! Use WINDSOR RUGGED SALT daily for cooking and table. Prevents gutters. Approved by boards of health.

## HAVE YOU HEARD

MY WISH

It is my wish to think one kindly thought, To breathe one simple prayer each day I wake, That I may add to those about me naught That would their own life's burdens harder make. If I but do one comfort-giving deed, If I but speak aloud one word of cheer, Perchance some soul, discouraged, And lost its sudden weight of doubt or fear. What service to mankind can be more blessed? It costs so little, and I gain so much Each time I pass the sunshine to the rest, I, too, am warmed by its gentle touch.

Young Man—Darling, I love you as no one ever loved before! Young Widow—Humph! I can't see any difference.

Opportunity knocked on some doors here in the city recently and the householders, thinking it was the brush salesman, went right on playing contract bridge and didn't answer the door-bell.

Dentist's Nurse—Doctor, it took you a long time to pull that last man's tooth. Dentist—Yes, confound him! He married the girl I was in love with.

Now, Mr. Willcox, will you be good?

"LOST—My husband. Answers to most any name. I called him everything before our separation. He is bald-headed, short, fat and dumb; true American type of the "model" husband. Finders keepers. LUCY WILLCOX. — From the Burnt Chimney's, Virginia, Weekly Clarion.

He had long outstayed his welcome. "Tell me," said his host, at last, "how long was the fish you caught the other day?"

"Oh," said the guest, holding his hands wide apart, "so long."

"Well, so long," returned the host, "if you really must be going."

Peck—My views on bringing up the family are—

Mrs. Peck—Never mind your views. I'll bring up the family. You go and bring up the coal.

It's easy enough to eat corn off the cob, When you've nice teeth to be proud about, But the guy worth while Is the one who can smile When all his front teeth are out.

## Shortage of Ships Vimy Pilgrimage

Two Thousand Already Booked Passage — Railways Grant One Cent Per Mile Rate — Applications Pouring In.

Ottawa—Canadian Great War Veterans and their next-of-kin are taking no chances on being left behind when the special Pilgrimage Liners leave Montreal for Overseas in July next. Mr. Ben. Allen, Dominion Organizer for the Vimy and Battlefields Pilgrimage, who has just returned from England, France and Belgium, announced recently that reservations to date number 2,000 and expresses fear that thousands of Canadian war veterans and their next-of-kin may be disappointed in failure to obtain passages unless applications are filed immediately.

"We have just returned from meeting the steamship people," stated Mr. Allen, "and they have warned us that boats may not be available unless reservations are in early. It will be too late if a last few months' rush develops. Unless we can definitely state within the next few months what the number will be, there will be many returned men disappointed."

"Applications are coming in now at the rate of over one hundred per week, but with the authorization given us by the Canadian National Railways and the Canadian Pacific Railway Company to announce a flat rate of one-cent-per-mile to and from Montreal for every Pilgrim from his or her home address, we will be swamped with reservations that may fill up our ships."

## Trappers Reveal Methods In New Fur Book

Some of Ontario's most successful trapping sets and pelt preparing methods are described by their originators in the new, 1935-36 issue of "The Dominion Trapper."

Although published by The Robert Simpson Eastern Limited, the real authors of this unusual newspaper are followers of the trappers, whose articles and hints to trappers make up the greatest portion of the contents. The illustrations are chiefly snapshots contributed by trappers and fur farmers, along with their suggestions on how to catch the wary fur bearer. In fact, a feature of this issue is a full-page devoted to photographs coming from the trappers.

A copy may be obtained free of charge by addressing the Raw Fur Marketing Department, Robert Simpson Eastern Limited, Toronto. Although the marketing service is limited to Ontario only, "The Dominion Trapper" will be sent gratis to anyone on request.

## POULTRY SHOW BIG FEATURE

Royal Winter Fair Has First Class Display Assured

A first class poultry show is assured next month for the Royal Winter Fair and by present indications the numbers of entries may tax the 800-head accommodation to the utmost. Twenty-seven specialty clubs in poultry, pigeons, canaries, and caviar have registered up to date to hold their yearly club shows in the pens as part of and in connection with the eight-day Fair at the Royal Coliseum, and the list for these is not yet closed. Besides poultry proper the Royal Winter Fair includes shows of pigeons, water-fowl, cage birds, caviar and rabbits. In some of the classes numerous American entries are anticipated. Incidentally the total prize money amounts to \$10,000.

The clubs holding their club meets and shows during "The King's Year" are:

American Bantam Association, American Rose Comb White Leghorn Club, "Boosters" Club — Leghorn Club of Canada, Brahma Breeders' Association, Canadian Barred Plymouth Rock Club, Canadian National Poultry Record Association, Dominion Bantam Association, Dominion White Wyandotte Association, National White Holland Turkey Club, National White Wyandotte Club, Ontario Approved Turkey Breeders' Association, Orpington Club of Canada, Rhode Island Red Club of America, Silver Wyandotte Club of Canada, United White Minorca Club, Canadian Pigeon Fanciers' Association, Canadian Jacobin Club, Canadian Magpie Club, Canadian National Tippler Association, Canadian New and Archangel Club, Canadian Pinner Pouter Club, Canadian Tumbler Club, Racing Pigeon and Show Club, Canadian Cavy Association, Canadian and American Cavy Club, Canadian Fur Fanciers' Association, Dominion Roller Canary Association.

Issue No. 42 — '35

## Four Hundred Thousand More Jobs

Wage-earners in Canada are finding more jobs.

You might not think so by watching relief rolls and costs, but if you would search out the good news, analyze the figures prepared and tabulated each month by the Dominion Bureau of Statistics. The bureau receives returns monthly from over 9,000 business firms which employ normally almost a million workers or about 45 per cent of the total industrial working force of Canada.

Assuming this "sample" is still proportionately the same, what do we find? In short that there are now about 2,770,000 people back at work, a gain of 4 per cent, or 115,000 compared with the same month a year ago. Compared with the Autumn of 1932 this means employment at the present time for 460,000 more wage-earners.

Among the sixty different industrial groups which comprise these figures, two in particular stand out like mountain tops. One is silk

firms; the other metal mines. For instance, silk plants are now employing 6 1-4 men for every one they employed in the so-called "normal" year, 1926. They have two men employed for every one in 1931. And the new figures show that the "metal mines" — as against coal mining and non-metallic minerals — have now doubled their strength as compared with the low point of the depression; are employing 23 per cent more men than at this time a year ago, and reached a new record level of employment on Sept. 1.

Two important groups show smaller employment than at this time last year. Logging camps are seasonally quiet and employing 9 per cent less than a year ago, but are looking forward to an active season in the bush for 1935-36. Construction is 6 per cent less active than at this time a year ago, due to considerably less government work on the highways. Building and railway construction are ahead of this time last year.—Financial Post.

## Fresh Lamb The Year Round

Is The Object Of The Newly Formed Canadian Lamb Committee

An appreciable benefit to the Canadian farmer-sheepbreeder is anticipated from the work being carried on by the recently organized Canadian Lamb Committee, which has undertaken to conduct a campaign to encourage the consumption of fresh Canadian lamb and to inform Canadian housewives of the economical and nutritive advantages and the year-round availability of this type of meat according to a statement just issued by the committee.

The committee consists of W. H. J. Tisdale, Canadian Co-operative Wool Growers, chairman; R. W. Wade, Canadian Sheepbreeder's Association, secretary-treasurer; S. E. Todd, Industrial and Development Council of Canadian Meat Packers, L. E. O'Neill, Live Stock Commissioner, Ontario Department of Agriculture, and A. A. MacMillan, Associate Chief Live Stock Branch, Dominion Department of Agriculture, directors.

The object of the campaign, the statement continues, is to effect a more even balance between the production and the consumption of fresh lamb in Canada. Its work has been necessitated because within recent years the finishing and marketing methods of fresh Canadian lamb have been improved to such an extent that this meat may now be obtained at moderate prices during any month in the year.

The majority of housewives, however, are still apt to regard fresh lamb as somewhat of a seasonal luxury and are not fully aware of the continuous monthly movement of the farmer's product to the retail market. It is claimed in the statement. A great many housewives also do not appreciate the tremendous nutritive value of lamb and its suitability as a staple meat in the family diet, and the committee is confident that its efforts will be of substantial benefit to thousands of Canadian housewives as well as to thousands of Canadian farmers and sheepbreeders.

## Date Bureau

Toronto—The date bureau at the University of Toronto is functioning again, keeping lonely hearts from aching by arranging dates for shy freshmen and freshettes. It costs an applicant 10 cents to get an introduction.

Correct this sentence—"He is no good," said the rich father, "though I did everything possible to make a man of him."

## The Body-Building Qualities of COD LIVER OIL PLUS

Additional Bone-Building Minerals

Strong bodies, straight bones and sound teeth are built from the mineral salts and vitamins in Scott's Emulsion.

Scott's Emulsion is vitamin rich Cod Liver Oil emulsified for quick easy digestion and combined with the bone and body building mineral salts hypophosphites of Lime and Soda.

PLUS VALUES you get ONLY in SCOTT'S EMULSION.

**SCOTT'S EMULSION**

THE DIGESTIBLE COD LIVER OIL WITH THE PLUS VALUES FOR SALE BY YOUR DRUGGIST

## Community Action In Soil Control

Is Needed For A Maximum Degree Of Success

While individual effort is usually very effective in controlling soil drifting, and every farmer should adopt the best known control measures on his own farm, the most successful results, says the "Soil Drifting Control in the Prairie Provinces" bulletin issued by the Dominion Department of Agriculture, will undoubtedly follow the adoption of community action. The importance of this community action will be readily understood from the fact that an area of undrained, drifting soil usually expands very rapidly. Moving particles of soil are not always brought to rest by collision with stationary soil particles, and in many cases the latter are caused to join in a general movement under the influence of high winds.

The most carefully planned and executed control measures may be entirely ruined if the soil has to withstand the combined action of wind and drifting soil from adjoining areas. These facts show the necessity for community action if a maximum degree of success in the control of soil drifting is to be obtained. While the control of drifting on any farm is primarily the concern of the individual farmer, his success may be aided or hampered by the action of his immediate neighbours.

In order to prevent losses to neighboring property by unprotected summerfallow, the Legislative Assembly of the province of Alberta passed an Act in 1935 known as the "Control of

## It's High Time for Ogden's

With better times why not join the movement back to Ogden's and complete satisfaction?

Buy a package of Ogden's Fine Cut, and roll it with "Chantecler" or "Vogue" Papers. This is a sure recipe for smoking pleasure.

Save the valuable Poker Hands

**OGDEN'S FINE CUT**

Your Pipe Knows Ogden's Cut Plug

Soil Drifting Act." This Act carries certain penalties for failure to provide proper protection to adjacent property. No claim for damages may be made by any person, however, unless the claimant himself is complying with the Act in regard to soil drifting control measures. The Act comes into force on the 1st day of March, 1936.

## HEALTH-GIVING MINERAL SALTS IN SASKATCHEWAN LAKE

WATERS OF LITTLE MANITOUP RICH IN NATURE'S MEDICINES

FOUND MORE ABUNDANTLY HERE THAN IN OTHER WORLD FAMOUS SPAS

More and more the marvelous heritage of Canada is impressed upon Canadians. More and more, Canadians talk about the wonders of Little Manitoia Lake—the curative waters abundant in health giving minerals—more potent than the famous waters of Carlsbad in Europe—situated near Watrous, in the Province of Saskatchewan.

Tons of Salt Crystals gathered from this Canadian Lake—scientifically refined and present in highly concentrated form—non-corrosive—are sold through your retail druggist under the name of SASKAL. Like the famous waters of Carlsbad, SASKAL is invaluable in the treatment of Rheumatism—Neuritis—Mild Stomach Disorders—Kidney and Liver Troubles—Impure Blood—Skin Eruptions and Constipation.

If you are not enjoying vigorous health, or if you suffer from any one of the complaints—try a treatment of "Saskal." One size package—one price, 50c. Let us send you a FREE sample of SASKAL.

4 years	8.00	60,000	4 years	8.00	50,000	4 years	8.00	36,000
5 years	10.00	100,000	5 years	10.00	80,000	5 years	10.00	60,000

DOUBLE VOTES WILL BE GIVEN ON NEW SUBSCRIPTIONS DURING THE FIRST PERIOD.

The above schedule of votes which is on a declining scale positively will not be changed during the campaign. A special ballot, however, for 50,000 EXTRA VOTES will be issued on each "club" of \$20.00 worth of subscriptions toward the campaign. This arrangement will be in effect throughout the campaign and be considered a part of the regular vote schedule. This newspaper reserves the right, if so desired, to include job printing and advertising, in which event the above schedule of credit will obtain and in the same ratio for larger orders up to a limited amount.

### WEEKLY BONUS AWARDS COUNT BIG

On Saturday nights a big MONEY BONUS the work done by that candidate for the week, BALLOT will be given each participant based on according to the following schedule:

#### THE FIRST PERIOD

\$ 30.00 reported for the week — 150,000 votes  
\$ 50.00 reported for the week — 300,000 votes  
\$ 80.00 reported for the week — 600,000 votes  
\$ 100.00 reported for the week — 1,000,000 votes

#### THE SECOND AND THIRD PERIOD

\$ 30.00 reported for the week — 100,000 votes  
\$ 50.00 reported for the week — 200,000 votes  
\$ 80.00 reported for the week — 300,000 votes

\$100.00 reported for the week — 600,000 votes  
\$150.00 reported for the week — 1,000,000 votes

### TURN IN SUBSCRIPTIONS DAILY

Do not hold back subscriptions to complete "clubs". An accurate record will be kept of each candidate's business and each day that a candidate reports THREE or more subscriptions, a bonus of 5,000 "daily" report votes will be given. You gain by reporting each day in the week. IT IS THE VOTES THAT WIN!

Don't hesitate to ask questions if there is anything you don't understand.

(Must be cast within week from date of this issue)

Name \_\_\_\_\_

Address \_\_\_\_\_

Collect all these Coupons you can. Get your friends to save them for you. (CLIP NEATLY. DO NOT HOLD OR FOLD.)

### First Subscription Coupon

GOOD FOR 100,000 VOTES

Name \_\_\_\_\_

Address \_\_\_\_\_

This coupon will entitle the person whose name appears above to 100,000 votes when turned in to the campaign department when the first subscription is secured.

### Board Of Judges —

This campaign will be conducted throughout its entire duration in an absolutely fair and equitable manner; no influence can enter into this competition but the influence of the candidate himself. Everything that can be done has been done to assure that there can be no possible reason for

anything but the most favourable comment on the manner in which the campaign is conducted.

A Board of Judges will be selected by the candidates themselves, from among men and women of known integrity residing in this district and the names of these judges will be announced later. The Board of Judges will have complete supervision over the manner in which the awards are made.

**LATE STARTERS—Do not longer delay entering the campaign as the Bonus Votes and High Vote Values will be in effect for only a short time. By starting now you can quickly catch the leaders. Your friends will gladly help you if you do not delay it further.**

**TO ALL READERS - Some Candidate is Now Appealing to YOU to Help Him to the Top**

IF EVERY DETAIL OF THE CAMPAIGN IS NOT ENTIRELY CLEAR TO YOU, PHONE THE OFFICE AND A CAMPAIGN REPRESENTATIVE WILL GLADLY CALL AND EXPLAIN.
